This book offers a radically new perspective on the Pop Art creative dynamic that has been around since the 1950s. The book discusses the major contributors to the Pop/Mass-Culture Art tradition right up to the present, including a number of artists who have never previously been associated with so-called Pop Art but whose work showed a strong interest in mass-culture. The book reproduces, in colour and in great detail, over 150 of the key works of the Pop/Mass-Culture Art tradition, allowing the reader to have a closer look and better understanding of these images.
