A fluid drive standard transmission, with 3 or 4 speeds, became an available option. The front end and dashboard/gauge layout were redesigned for 1951. 1953 was the last year of the Pilot-house, but brought many new changes. The Truck-O-Matic transmission, a fully automatic transmission was available for ½ and ¾ ton models. A longer 7 ft 6 in (2.29 m) bed became available, which would increase the wheelbase to 116 in (2,900 mm).

After that only the number changed as each new year model came  
along. 1951 was the B-2. 1953 was the B-3. The postwar B-trucks  
leapfrogged GM and Ford; the B-series had a superior cab with  
taller seats and larger glass areas, named “pilot house” for its  
visibility.

This is a reprint of the book that was used in a Dodge dealer's parts department so that customers could order parts. You will find illustrations and the original part numbers, which are still useful today because most parts vendors still use Dodge's numbers to keep track of their parts. Use this book to make your search for parts both quicker and easier. The illustrations in the book will ...

With Dodge B-Series trucks becoming more rare with each passing year, it becomes more difficult to correctly identify an original condition truck. Drawing upon official Chrysler publications and a broad knowledge of original condition trucks, Dodge truck expert, Don Bunn, brings the restorer or buyer the information needed to correctly restore a truck or make an intelligent and informed purchase. It covers the entire line of 1948 through 1953 Dodge B-Series light, medium and heavy-duty models except Power Wagon, with a heavy emphasis on light-duty models because they are the
