DIVGas prices go up and down, but mostly up, and that trend is likely to continue for the foreseeable future. Because of this, people are increasingly turning to motor scooters. In addition to being entertaining to ride and providing extreme mobility, scooters often travel up to 100 miles for each gallon of gasoline burned. How to Repair Your Scooter is divided into chapters according to the scooter's various mechanical systems. For example, brakes, suspension, intake, exhaust, etc. each have their own chapter. Each chapter begins with a simple explanation of how the subsystem works and what its strengths and weaknesses are. The chapter then takes the reader through a series of common maintenance and repair projects, each illustrated with step-by-step sequential photography with captions. Content covers two- and four-stroke scooters and is relevant for machines from all markets. /div

What is it about the Indian psyche that makes us so incapable of fulfilling our promise as a nation? Why are we so averse to risk, resigned to mediocrity and mired in a collective lack of confidence? India has so much potential but seems forever stuck on the brink of actualization, unable to muster the political will and geo-economic force to clear the final bar. The stakes are higher than ever, and India's moment is now. But where should we turn first-to our troubles at home, or to the global challenges of terrorism, tyranny, ethnic conflict, mass migration, civil war and climate change? The fact is, India's foreign and domestic agendas are inextricably intertwined, and neither can advance without the other. They must be addressed simultaneously if we are to thrive as a nation; the world is moving too fast to allow us to deal with one set of problems before moving on to the next. We simply don't have that kind of time. In Super Century, Raghav Bahl offers a cogent and candid assessment of how we got where we are and a clear blueprint of what we need to do, both at home and in the world, to fulfil our promise going forward.
