Then, it explains key features for the user-friendly design of human-machine interfaces between driver and assistance system. These meditations inspired by a Matisse painting are la paean to the act of seeing, celebrating our capacity to be transformed by the truths art holds. The New York Times Book Review Named a Chicago Tribune Best Book of the Year and a Los Angeles Times Favorite Nonfiction of the Year Just out of college, Patricia Hampl was mesmerized by a Matisse painting in the Art Institute of Chicago: an aloof woman gazing at goldfish in a bowl, a Moroccan screen behind her. In Blue Arabesque, Hampl explores the allure of this lounging woman, immersed in leisure, so at odds with the rush of the modern era. Hampl's meditation takes us to the Cote d'Azur and to North Africa, from cloister to harem, pondering figures as diverse as Eugene Delacroix, F. Scott Fitzgerald, and Katherine Mansfield. Returning always to Matisse's portraits of languid women, she discovers they were not decorative indulgences but something much more. Moving with the life force that Matisse sought in his work, Blue Arabesque is Hampl's dazzling and critically acclaimed tour de force.

The claim by certain rulers to universal empire has a long history stretching as far back as the Assyrian and Achaemenid Empires. This book traces its various manifestations in classical antiquity, the Islamic world, Asia and Central America as well as considering seventeenth- and eighteenth-century European discussions of international order. As such it is an exercise in comparative world history combining a multiplicity of approaches, from ancient history, to literary and philosophical studies, to the history of art and international relations and historical sociology. The notion of universal, imperial rule is presented as an elusive and much coveted prize among monarchs in history, around which developed forms of kingship and political culture. Different facets of the phenomenon are explored under three, broadly conceived, headings: symbolism, ceremony and diplomatic relations; universal or cosmopolitan literary high-cultures; and, finally, the inclination to present universal imperial rule as an expression of cosmic order.
