Latest news, headlines, analysis, photos and videos on Barack Obama

From Barack Obama's former communications director comes a colourful account of how politics, the media, and the internet changed during the Obama presidency and how Democrats can fight back in the Trump era. The 'Decade of Obama' (2007–2017) was one of massive change that rewrote the rules of politics in ways that are only now beginning to be understood. Which is why all pundits got the 2016 presidential election wrong). Yes We (Still) Can looks at how Obama navigated the forces that allowed Trump to win the White House, becoming one of the most consequential presidents in American history, why Trump surprised everyone, and how Democrats can come out on top in the long run. Part political memoir, part blueprint for progressives in the Trump era, Yes We (Still) Can is an insider's take on the crazy politics of our time. Pfeiffer, one of Barack Obama's longest-serving advisors, reveals never-before-told stories ranging from Obama's presidential campaigns to his time in the White House, providing readers with an in-depth, behind-the-scenes look at life on the front line of politics.

The groundbreaking investigative story of how three successive presidents and their military commanders deceived the public year after year about America's longest war, foreshadowing the Taliban's recapture of Afghanistan, by Washington Post reporter and three-time Pulitzer Prize finalist Craig Whitlock. Unlike the wars in Vietnam and Iraq, the US invasion of Afghanistan in 2001 had near-unanimous public support. At first, the goals were straightforward and clear: to defeat al-Qaeda and prevent a repeat of 9/11. Yet soon after the United States and its allies removed the Taliban from power, the mission veered off course and US officials lost sight of their original objectives. Distracted by the war in Iraq, the US military became mired in an unwinnable guerrilla conflict in a country it did not understand. But no president wanted to admit failure, especially in a war that began as a just cause. Instead, the Bush, Obama, and Trump administrations sent more and more troops to Afghanistan and repeatedly said they were making progress, even though they knew there was no realistic prospect for an outright victory. Just as the Pentagon Papers changed the public's understanding of Vietnam, The Afghanistan Papers contains startling revelation after revelation from people who played a direct role in the war, from leaders in the White House and the Pentagon to soldiers and aid workers on the front lines. In unvarnished language, they admit that the US government's strategies were a mess, that the nation-building project was a colossal failure, and that drugs and corruption gained a stranglehold over their allies in the Afghan government. All told, the account is based on interviews with more than 1,000 people who knew that the US

## Download Free 2015 Barack Obama Out Of Office Calendar Countdown Wall Calendar The End Is Near

government was presenting a distorted, and sometimes entirely fabricated, version of the facts on the ground. Documents unearthed by The Washington Post reveal that President Bush didn't know the name of his Afghanistan war commander—and didn't want to make time to meet with him. Secretary of Defense Donald Rumsfeld admitted he had “no visibility into who the bad guys are.” His successor, Robert Gates, said: “We didn't know jack shit about al-Qaeda.” The Afghanistan Papers is a shocking account that will supercharge a long overdue reckoning over what went wrong and forever change the way the conflict is remembered.

#1 NEW YORK TIMES BESTSELLER • Barack Obama's lucid vision of America's place in the world and call for a new kind of politics that builds upon our shared understandings as Americans, based on his years in the Senate “In our lowdown, dispiriting era, Obama's talent for proposing humane, sensible solutions with uplifting, elegant prose does fill one with hope.”—Michael Kazin, The Washington Post In July 2004, four years before his presidency, Barack Obama electrified the Democratic National Convention with an address that spoke to Americans across the political spectrum. One phrase in particular anchored itself in listeners' minds, a reminder that for all the discord and struggle to be found in our history as a nation, we have always been guided by a dogged optimism in the future, or what Obama called “the audacity of hope.” The Audacity of Hope is Barack Obama's call for a different brand of politics—a politics for those weary of bitter partisanship and alienated by the “endless clash of armies” we see in congress and on the campaign trail; a politics rooted in the faith, inclusiveness, and nobility of spirit at the heart of “our improbable experiment in democracy.” He explores those forces—from the fear of losing to the perpetual need to raise money to the power of the media—that can stifle even the best-intentioned politician. He also writes, with surprising intimacy and self-deprecating humor, about settling in as a senator, seeking to balance the demands of public service and family life, and his own deepening religious commitment. At the heart of this book is Barack Obama's vision of how we can move beyond our divisions to tackle concrete problems. He examines the growing economic insecurity of American families, the racial and religious tensions within the body politic, and the transnational threats—from terrorism to pandemic—that gather beyond our shores. And he grapples with the role that faith plays in a democracy—where it is vital and where it must never intrude. Underlying his stories is a vigorous search for connection: the foundation for a radically hopeful political consensus. Only by returning to the principles that gave birth to our Constitution, Obama says, can Americans repair a political process that is broken, and restore to working order a government that has fallen dangerously out of touch with millions of ordinary Americans. Those Americans are out there, he writes—“waiting for Republicans and Democrats to catch up with them.”

"Every story has two sides. Every relationship has two perspectives. And sometimes, it turns out, the key to a great marriage is not its truths but its secrets ... At age twenty-two, Lotto and Mathilde are tall, glamorous, madly in love, and destined for greatness. A decade later, their marriage is still the envy of their friends, but ... things are even more complicated and remarkable than they have seemed"--

By mid-2015, the Obama presidency will be entering its final stages, and the race among the successors in both parties will be well underway. And while experts have already formed a provisional understanding of the Obama administration's foreign policy goals, the shape of the "Obama Doctrine" is finally coming into full view. It has been consistently cautious since Obama was inaugurated in 2009, but recent events in the Middle East, Eastern Europe, and the Far East have led an increasingly large number of foreign policy experts to conclude that caution has transformed into weakness. In *The Obama Doctrine*, Colin Dueck analyzes and explains what the Obama Doctrine in foreign policy actually is, and maps out the competing visions on offer from the Republican Party. Dueck, a leading scholar of US foreign policy, contends it is now becoming clear that Obama's policy of international retrenchment is in large part a function of his emphasis on achieving domestic policy goals. There have been some successes in the approach, but there have also been costs. For instance, much of the world no longer trusts the US to exert its will in international politics, and America's adversaries overseas have asserted themselves with increasing frequency. The Republican Party will target these perceived weaknesses in the 2016 presidential campaign and develop competing counter-doctrines in the process. Dueck explains that within the Republican Party, there are two basic impulses vying with each other: neo-isolationism and forceful internationalism. Dueck subdivides each impulse into the specific agenda of the various factions within the party: Tea Party nationalism, neoconservatism, conservative internationalism, and neo-isolationism. He favors a realistic but forceful US internationalism, and sees the willingness to disengage from the world by some elements of the party as dangerous. After dissecting the various strands, he articulates an agenda of forward-leaning American realism--that is, a policy in which the US engages with the world and is willing to use threats of force for realist ends. *The Obama Doctrine* not only provides a sharp appraisal of foreign policy in the Obama era; it lays out an alternative approach to marshaling American power that will help shape the foreign policy debate in the run-up to the 2016 elections.

"An insightful study of a president who listened to even his harshest critics with grace and humility."—*The Washington Post* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY GLAMOUR Every evening for eight years, at his request, President Obama was given ten handpicked letters written by ordinary American citizens—the unfiltered voice of a

## Download Free 2015 Barack Obama Out Of Office Calendar Countdown Wall Calendar The End Is Near

nation—from his Office of Presidential Correspondence. He was the first president to interact daily with constituent mail and to archive it in its entirety. The letters affected not only the president and his policies but also the deeply committed people who were tasked with opening and reading the millions of pleas, rants, thank-yous, and apologies that landed in the White House mailroom. In *To Obama*, Jeanne Marie Laskas interviews President Obama, the letter writers themselves, and the White House staff who sifted through the powerful, moving, and incredibly intimate narrative of America during the Obama years: There is Kelli, who saw her grandfathers finally marry—legally—after thirty-five years together; Bill, a lifelong Republican whose attitude toward immigration reform was transformed when he met a boy escaping MS-13 gang leaders in El Salvador; Heba, a Syrian refugee who wants to forget the day the tanks rolled into her village; Marjorie, who grappled with disturbing feelings of racial bias lurking within her during the George Zimmerman trial; and Vicki, whose family was torn apart by those who voted for Trump and those who did not. They wrote to Obama out of gratitude and desperation, in their darkest times of need, in search of connection. They wrote with anger, fear, and respect. And together, this chorus of voices achieves a kind of beautiful harmony. *To Obama* is an intimate look at one man's relationship to the American people, and at a time when empathy intersected with politics in the White House. Praise for *To Obama* "I cried several times."—Pete Souza "Beautifully researched and written . . . A moving and inevitably nostalgic or even elegiac read, redolent of the human grace and statesmanship of the Obama presidency."—The Guardian "These stories, when you read them all together, tell the American story. They're inspirational, they're frustrating, they're angry, they're grateful, they're resilient."—Valerie Jarrett

Michael Savage predicted the chaos that is Obama's legacy. Now he tells us whether the destruction can be stopped! The prophetic author of the bestselling *Government Zero*, Dr. Michael Savage is back with his most urgent and powerful work. Listeners to Dr. Savage's top-rated radio talk show, *The Savage Nation*, know him to be an articulate and engaged spokesman for traditional American values of borders, language, and culture. Now, after eight divisive years of Barack Obama, Dr. Savage lays out an irrefutable case for how our nation has been undermined by terrorists from without, by anarchists from within, by a president and politicians with contempt for the Constitution and the law, and by a complicit liberal media. With words and topics that are as insightful as they are timely, he makes an ironclad case for the dangers we face from Hillary Clinton and her fellow travelers in the progressive movement. He also explains why Donald Trump may be one of the two best hopes for America's future as we try to regain control of our government, our country, and our national soul. The other hope? As Dr. Savage explains in some of his most heartfelt and passionate words, it is we, the people: the ordinary "Eddies," as he calls them—motivated, roused, and engaged.

This book is about much more than an election. It is a veteran commentator and celebrated raconteur providing a blueprint for how to regain our cherished freedoms and our national identity . . . before they are lost forever.

Barack Obama's politics are deeply informed by his profound knowledge and understanding of his country's history. His articles, books, and speeches are replete with references to America's past and how that relates to the present he sees and the future he envisions. Exploring Obama's own words, Steven Sarson examines his interpretation of American history from colonial times to the present, showing how Obama sees American history as beginning with the "common creed" of equality and liberty proclaimed in the Declaration of Independence and the "more perfect union" created by the Constitution. He analyses Obama's understanding of the colonies, revolution, and early nation, slavery and the civil war, segregation and civil rights, economy and society, Native Americans and foreign policy. An epilogue explores how Obama personifies the American dream through the stories of individuals, including his own. A unique and fascinating take on the past and how we interpret it, this book will appeal to all students and scholars of American history, as well as anyone interested in Obama's presidency.

It's amateur hour at the White House. So says New York Times bestselling author Edward Klein in his new political exposé *The Amateur*. Tapping into the public's growing sentiment that President Obama is in over his head, *The Amateur* argues that Obama's toxic combination of incompetence and arrogance have run our nation and his presidency off the rails. "Obama was both completely inexperienced and ideologically far to the left of Americans when he entered the White House," says Klein. "And he was so arrogant that he didn't even know what he didn't know." Klein, who is known for getting the inside scoop on everyone from the Kennedys to the Clintons, reveals never-before-published details about the Obama administration's political inner workings and about Barack and Michelle's personal lives, including: The inordinate influence Michelle wields over Barack and her feud with a high-profile celebrity The real reason Rahm Emmanuel left the White House (it wasn't for family reasons) Why Valerie Jarrett's role is closer to that of Rasputin than impartial senior advisor Obama's problems with American Jews How Obama has purposefully forgotten and ignored those that put him in power, including the Kennedys, and the Jewish and African American communities in Chicago From Obama's conceited and detached demeanor, to his detrimental reliance on Michelle Obama and Valerie Jarrett's advice, to the Obamas' extravagant and out-of-touch lifestyle, *The Amateur* reveals a president whose blatant ignorance and incompetence is sabotaging himself, his presidency, and America.

As Americans, liberty is an inalienable right that is granted to us by God, protected by the Constitution, and upheld by our government.

## Download Free 2015 Barack Obama Out Of Office Calendar Countdown Wall Calendar The End Is Near

Yet, Barack Obama doesn't seem to share that view. To him, liberty is a threat to the government's power and something to be squashed by any means possible, as bestselling author David Limbaugh shows to devastating affect in his new book, Crimes Against Liberty. Laying out his case like he would a criminal complaint, Limbaugh presents the evidence—count-by-count—against Obama. From exploiting the financial crisis for political gain, to restricting our personal freedoms through invasive healthcare and “green” policies, to endangering America with his feckless diplomacy and reckless dismantlement of our national security systems, Limbaugh proves—beyond a reasonable doubt—that Obama is guilty of crimes against liberty.
