The word 'revision' can strike fear into the heart of teachers and students alike! The exam cycle in today's modern education system can feel relentless, resulting in students suffering from information overload and exam fatigue. But it doesn't have to be like this! John Mitchell strongly believes that revision can be a opportunity to deepen students' understanding of a topic in an innovative, collaborative, and fun way - you just need to think outside the box! In this brilliant book, John Mitchell offers a diverse range of activities, games, tips and tricks that teachers can use in the classroom to help guide students through this stressful period. By combing theory with strategies tried and tested in the classroom, it will help teachers to create a culture where students are encouraged to review and reinforce their learning. It ranks right up there with public speaking. Nearly all of us fear it. And yet it is critical to our success. Asking for money. It makes even the stout-hearted quiver. But now comes a book, *Asking: A 59-Minute Guide to Everything Board Members, Staff and Volunteers Must Know to Secure the Gift*. And short of a medical elixir, it's the next best thing for emboldening you, your board members and volunteers to ask with skill, finesse ... and powerful results. Jerold Panas, who as a staff person, board member and volunteer has secured gifts ranging from \$50 to \$50 million, understands the art of asking perhaps better than anyone in America. He knows what makes donors tick, he's intimately familiar with the anxieties of board members, and he fully understands the frustrations and demands of staff. He has harnessed all of this knowledge and experience and produced a landmark book. What *Asking* convincingly shows – and one reason staff will applaud the book and board members will devour it – is that it doesn't take stellar sales skills to be an effective asker. Nearly everyone, regardless of their persuasive ability, can become an effective fundraiser if they follow a few step-by-step guidelines. You have to know your cause, of course, and be committed to it. But, as important, you have to know how to get the appointment, how to present your case, how to read your donor's words, how to handle objections, how to phrase your request, and even what behaviors to avoid.
