A second section contains interviews, along with Foucault's key writings on ethics, including some of the riskiest and most personal writing of Foucault's career. These pieces illustrate the attempt to elaborate new ways of life and modes of "care of the self" that concerned him during the last years of his life.

<p>The first to use Judith Butler 's work as a reading of how the legal subject is formed, this book traces how Butler comes to the themes of ethics, law and politics analyzing their interrelation and explaining how they relate to Butler 's question of how people can have more liveable and viable lives. Acknowledging the potency and influence of Butler 's ' concept ' of gender as process, which occupies a well developed and well discussed position in current literature, Elena Loizidou argues that the possibility of people having more liveable and viable lives is articulated by Butler within the parameters of a sustained agonistic relationship between the three spheres of ethics, law and politics. Suggesting that Butler 's rounded understanding of the interrelationship of these three spheres will enable critical legal scholarship, as well as critical theory more generally, to consider how the question of life 's unsustainable conditions can be rethought and redressed, this book is a key read for all students of legal ethics, political philosophy and social theory.</p>
<p>This book covers the topics Foucault helped make the core agenda of Western political culture - medicine, prisons, psychiatry, government and sexuality - emphasising Foucault's practical concern with discrimination, coercion and exclusion in human society.</p>
<p>Foucault and Fiction develops a unique approach to thinking about the power of literature by drawing upon the often neglected concept of experience in Foucault's work. For Foucault, an "experience book" is a book which transforms our experience by acting on us in a direct and unsettling way. Timothy O'Leary develops and applies this concept to literary texts. Starting from the premise that works of literature are capable of having a profound effect on their audiences, he suggests a way of understanding how these effects are produced. Offering extended analyses of Irish writers such as Swift, Joyce, Beckett, Friel and Heaney, O'Leary draws on Foucault's concept of experience as well as the work of Dewey, Gadamer, and Deleuze and Guattari. Combining these resources, he proposes a new approach to the ethics of literature. Of interest to readers in both philosophy and literary studies, this book offers new insights into Foucault's mature philosophy and an improved understanding of what it is to read and be affected by a work of fiction.</p>
<p>Aesthetics offers a focused study on the philosophy, literature and art which have informed Foucault's particular engagement with ethics and power, including brilliant commentaries on the work of de Sade, Rousseau, Marx, Nietzsche, Roussel and Boulez.</p>
<p>Roberto Esposito: Law, Community and the Political provides a critical legal introduction to this increasingly influential Italian theorist 's work, by focusing on Esposito 's reconceptualisation of the relationship between law, community and the political. The analysis concentrates primarily on Esposito 's Cat 6 gories de l ' Impolitique, Communitas, Immunitas and B í os, which, it is argued, are animated by an abiding concern with the position of critique in relation to the tradition of modern and contemporary legal and political philosophy. Esposito 's fundamental rethinking of these notions breaks with the existing framework of political and legal philosophy, through the critique of its underlying presuppositions. And, in the process, Esposito rethinks the very form of critique. As the first monograph-length study of Esposito in English, Roberto Esposito: Law, Community and the Political will be of considerable interest to those working in the areas of contemporary legal and political thought and philosophy.</p>
<p>Foundations of Public Law offers an account of the formation of the discipline of public law with a view to identifying its essential character, explaining its particular modes of operation, and specifying its unique task. Building on the framework first outlined in The Idea of Public Law (OUP, 2003), the book conceives public law broadly as a type of law that comes into existence as a consequence of the secularization, rationalization and positivization of the medieval idea of fundamental law. Formed as a result of the changes that give birth to the modern state, public law establishes the authority and legitimacy of modern governmental ordering. Public law today is a universal phenomenon, but its origins are European. Part I of the book examines the conditions of its formation, showing how much the concept borrowed from the refined debates of medieval jurists. Part II then examines the nature of public law. Drawing on a line of juristic inquiry that developed from the late sixteenth to the early nineteenth centuries-extending from Bodin, Althusius, Lipsius, Grotius, Hobbes, Spinoza, Locke and Pufendorf to the later works of Montesquieu, Rousseau, Kant, Fichte, Smith and Hegel-It presents an account of public law as a special type of political reason. The remaining three Parts unpack the core elements of this concept: state, constitution, and government. By taking this broad approach to the subject, Professor Loughlin shows how, rather than being viewed as a limitation on power, law is better conceived as a means by which public power is generated. And by explaining the way that these core elements of state, constitution, and government were shaped respectively by the technological, bourgeois, and disciplinary revolutions of the sixteenth century through to the nineteenth century, he reveals a concept of public law of considerable ambiguity, complexity and resilience.</p>
<p>Information Systems Research: Relevant Theory and Informed Practice comprises the edited proceedings of the WG8.2 conference, "Relevant Theory and Informed Practice: Looking Forward from a 20-Year Perspective on IS Research," which was sponsored by IFIP and held in Manchester, England, in July 2004. The conference attracted a record number of high-quality manuscripts, all of which were subjected to a rigorous reviewing process in which four to eight track chairs, associate editors, and reviewers thoughtfully scrutinized papers by the highly regarded as well as the newcomers. No person or idea was considered sacrosanct and no paper made it through this process unscathed. All authors were asked to revise the accepted papers, some more than once; thus, good papers got better. With only 29 percent of the papers accepted, these proceedings are significantly more selective than is typical of many conference proceedings. This volume is organized in 7 sections, with 33 full research papers providing panoramic views and reflections on the Information Systems (IS) discipline followed by papers featuring critical interpretive studies, action research, theoretical perspectives on IS research, and the methods and politics of IS development. Also included are 6 panel descriptions and a new category of "bright ideas" position papers, 11 in all, wherein main points are summarized in a pithy and provocative fashion.</p>
<p>Some theorists understand the self as constituted by power relations, while others insist upon the self's autonomous capacities for critical reflection and deliberate self-transformation. All too often, these understandings of the self are assumed to be incompatible. Amy Allen, however, argues that the capacity for autonomy is rooted in the very power relations that constitute the self. Her theoretical framework illuminates both aspects of what she calls, following Foucault, the "politics of our selves." It analyzes power in all its depth and complexity, including the complicated phenomenon of subjection, without giving up on the ideal of autonomy. Drawing on original and critical readings of a diverse group of theorists, Allen shows how the self can be both constituted by power and capable of an autonomous self-constitution.</p>
