Cambridge International AS and A Level Business Studies Revision Guide has been designed specifically to meet the requirements of the Cambridge syllabus.

ICDL conferences are recognized on of the most important platform in the world where noted expert share their experiences. Many DL experts have contributed thought provoking papers in ICDL 2013. These important papers are reviewed and conceptualized into ICDL on different areas of DL proceedings. The Proceedings have two volumes and has over 1100 pages.

This book constitutes the refereed proceedings of the Third International Conference on Reliability, Safety, and Security of Railway Systems, RSSRail 2019, held in Lille, France in June 2019. The 18 full papers presented in this book were carefully reviewed and selected from 38 submissions. They cover a range of topics including railways system and infrastructure advance modelling; scheduling and track planning; safety process and validation; modelling; formal verification; and security.

The Institute of Medicine (IOM) Committee on Quality Measures for the Healthy People Leading Health Indicators was charged by the Office of the Assistant Secretary for Health to identify measures of quality for the 12 Leading Health Indicator (LHI) topics and 26 Leading Health Indicators in Healthy People 2020 (HP2020), the current version of the Department of Health and Human Services (HHS) 10-year agenda for improving the nation's health. The scope of work for this project is to use the nine aims for improvement of quality in public health (population-centered, equitable, proactive, health promoting, risk reducing, vigilant, transparent, effective, and efficient) as a framework to identify quality measures for the Healthy People Leading Health Indicators (LHIs). The committee reviewed existing literature on the 12 LHI topics and the 26 Leading Health Indicators. Quality measures for the LHIs that are aligned with the nine aims for improvement of quality in public health will be identified. When appropriate, alignments with the six Priority Areas for Improvement of Quality in Public Health will be noted in the Committee's report. Toward Quality Measures for Population Health and the Leading Health Indicators also address data reporting and analytical capacities that must be available to capture the measures and for demonstrating the value of the measures to improving population health. Toward Quality Measures for Population Health and the Leading Health Indicators provides recommendations for how the measures can be used across sectors of the public health and health care systems. The six priority areas (also known as drivers) are population health metrics and information technology; evidence-based practices, research, and evaluation; systems thinking; sustainability and stewardship; policy; and workforce and education.

This edited volume explores development in the so-called 'fragile', 'failed' and 'pariah' states. It examines the literature on both fragile states and their development, and offers eleven case studies on countries ranking in the 'very high alert' and 'very high warning' categories in the Fund for Peace Failed States Index.

In this stimulating and highly original work, Kevin Doogan looks at contemporary social transformation through the lens of the labour market. Major themes of the day □ globalization, technological change and the new economy, the pension and demographic timebombs, flexibility and traditional employment □ are all subject to critical scrutiny. We are often told that a new global economy has emerged which has transformed our lives. It is argued that the pace of technological change, the mobility of multinational capital and the privatization of the welfare state have combined to create a more precarious world. Companies are outsourcing, jobs are migrating to China and India, and a job for life is said to be a thing of the past. The so-called [new capitalism] is said to be the result of these profound changes. Kevin Doogan takes issue with these widely-accepted ideas and subjects the transformation of work to detailed examination through a comprehensive analysis of developments in Europe and North America. He argues that precariousness is not a natural consequence of this fast-changing world; rather, current insecurities are manufactured, emanating from neoliberal policy and the greater exposure of the economy to market forces. New Capitalism? The Transformation of Work is sure to stimulate academic debate. Kevin Doogan's account will appeal not just to scholars, but also to upper-level students across the social sciences, including the sociology of work, industrial relations, globalization, economics, social policy and business studies.

This comprehensive research-based book is a next-generation study of intimate relationships that explores implications for health and well-being across cultures, genders, and traditional as well as non-traditional relationships. □ Explores intimate relationships across ages, cultures, traditional and non-traditional relationships □ Details the effects of intimate relationships on health, well-being, and quality of life □ Describes research tools and methods for assessing relationships □ Explains intervention strategies for relationship problems

Since NASA was established in 1958, it has landed rovers on distant planets and launched telescopes deep into space;all so that we can look back to the beginning of time. Through stunning images provided by NASA and fascinating profiles and sidebars of lesser known contributors to the NASA program, young space fans will learn how NASA started, how it faced challenges along the way, how much it has achieved, and how it will continue to move forward in the future. NASA's boundless curiosity and urge to explore lies at the heart of the human adventure. NASA rises to the urgent challenges we face, using its massive reach and expertise to find answers to vital questions like: How can we learn to live in a more extreme natural environment? Inspired by Rory Kennedy's documentary of the same name (airing 10/2018), Above and Beyond aims to leave audiences hopeful and inspired about the future of our planet;and convinced that NASA is essential to our continued survival as we mark its important anniversaries and dream of new discoveries to come.
