Destination, rates & speeds. International Edition. 2. Bioengineering Fundamentals (1st International Edition) Ann Saterbak; Ka-Yiu San; Larry V. McIntire. Published by Pearson (2007) ISBN 10: 0130938386 ISBN 13: 9780130938381. New Soft cover First Edition Quantity Available: 1. International Edition.

Combining engineering principles with technical rigor and a problem-solving focus, this textbook takes a unifying, interdisciplinary approach to the conservation laws that form the foundation of bioengineering: mass, energy, charge, and momentum. For sophomore-level courses in bioengineering, biomedical engineering, and related fields.
Originally published by HarperCollins in 1992.

Your Guide to the 10 Best of Everything in Seoul Discover the best of everything South Korea's capital city has to offer with the essential DK Eyewitness Top 10 Travel Guide Seoul. Top 10 lists showcase the best places to visit in Seoul, from Dongdaemun market to the grand royal palace of Gyeongbokgung. Rely on dozens of Top 10 lists - from the Top 10 museums to the Top 10 events and festivals - there's even a list of the Top 10 things to avoid. The guide is divided by area with restaurant reviews for each, as well as recommendations for hotels, bars and places to shop. You'll find the insider knowledge every visitor needs and explore every corner effortlessly with DK Eyewitness Top 10 Travel Guide: Seoul. DK Eyewitness Top 10 Travel Guide: Seoul - showing you what others only tell you. Now available in PDF format.

Still unique in the field, this text combines color photographs and full-color artwork in one convenient resource. The dissections are amazingly clear, almost 3-D in appearance, and color-coded artwork next to each photo makes anatomy easy to interpret and identify. Spanish version of 2nd edition also available, ISBN: 84-8086-118-5

This innovative and highly praised book describes the visible and palpable anatomy that forms the basis of clinical examination. The first chapter considers the anatomical terms needed for precise description of the parts of the body and movements from the anatomical positions. The remaining chapters are regionally organised and colour photographs demonstrate visible anatomy. Many of the photographs are reproduced with numbered overlays, indicating structures that can be seen, felt, moved or listened to. The surface markings of deeper structures are indicated together with common sites for injection of local anaesthetic, accessing blood vessels, biopsying organs and making incisions. The accompanying text describes the anatomical features of the illustrated structures. Over 250 colour photographs with accompanying line drawings to indicate the position of major structures. The seven regionally organised chapters cover all areas of male and female anatomy. The text is closely aligned with the illustrations and highlights the relevance for the clinical examination of a patient. Includes appropriate radiological images to aid understanding. All line drawings now presented in colour to add clarity and improve the visual interpretation. Includes 20 new illustrations of palpable and visible anatomy. Revised text now more closely tied in with the text and with increasing emphasis on clinical examination of the body.

In Time the Markets, award-winning technical analyst Charles D. Kirkpatrick applies technical analysis to key economic indicators and shows how to use them to identify market shifts, avoid loss, and become a more profitable long-term investor. Drawing on many years of publicly available data, Kirkpatrick demonstrates how to uncover powerful buy and sell signals and shows how to incorporate corporate, industry, monetary, sentiment, and market data into reliable timing indicators that can help you recognize impending stock and bond market dangers—and get out of the way. Relying primarily on proven technical analysis methods, Kirkpatrick incorporates trading system methods that have proven successful in market timing, including trend and momentum analysis, use of protective and trailing stops, and periodicity. Reflecting the latest insights into behavioral finance, he shares important new insight into measuring marketplace momentum and sentiment—helping long-term investors identify and evade the marketplace irrationalities that often cause capital loss.

Persuasive people generate real value for their companies by turning ideas into action. But persuasion isn't easy: It takes practice, patience, and psychological savvy. That's where this new volume comes in--by enabling you to: · Build your credibility · Adapt your pitch to your audience · Win your listeners' minds and hearts · Overcome resistance to your proposals · Leverage the forces that move people to embrace new ideas
