~~"Walden"~~ A Philosophy Of Solitude
Solitude, for Powys, is the only way in which we can maintain our dignity in a world out of balance. It is only through withdrawal from society and its follies, its grim demand to keep on smiling in spite of the constant horrors of modern life, that we can reach a state of enjoyment of our own miraculous consciousness.

Indeed, solitude can only ever be an artificial state. One needs extraordinary discipline – to maintain silence, to lose physical contact with other human beings. Indeed, unless it is explicitly chosen as a methodological way to gain access to oneself, solitary confinement is a punishment – a torture for human beings.

that Powys sets out of construct. To Powys, solitude is the necessary social, psychological, and intellectual state of the individual. It is social in pulling away from the life and tumult of the crowd (Powys lived for decades in New York City, finally moving to a small town in upper-state New York before returning to Wales a few short years after this book's publication).

Solitude in Nietzsche can be approached in at least three ways: 1) as an aspect of his personal and professional life, voluntary and involuntary, 2) Nietzsche's personal use of solitude as a creative person, and 3) his concept of solitude as a philosophical and existential state of being for the individual.

The solitude here is that of an individual whose mind is already relaxed. No matter how rare the aesthetic realm of solitude is in practice, it occupies a special hold in the popular imagination today. This is because the aesthetic quality of literary accounts of this solitude has settled on an idyllic image of solitary life in nature.

~~The Philosophy of Solitude~~ BBC Posts about philosophy of solitude written by Diana Senechal. In April I took part in a panel discussion on solitude, along with authors Eleanor Catton and Yiyun Li and host Bridget Kendall, on BBC World Service's program The Forum. (Update: I thought the podcast was going to expire on July 28, but it appears that it will be up for another year.)

For many of us it is the ultimate fear: to die alone. Loneliness is a difficult subject to address because it has such negative connotations in our intensely social world. But the truth is that wherever there are people, there is

loneliness. You can be lonely sitting in the quiet of your home, in the still of an afternoon park, or even when surrounded by throngs of people on a busy street. One need only turn on the radio to hear a crooner telling us just how lonesome we can be. In this groundbreaking book, philosopher Lars Svendsen confronts loneliness head on, investigating both the negative and positive sides of this most human of emotions. Drawing on the latest research in philosophy, psychology, and the social sciences, *A Philosophy of Loneliness* explores the different kinds of loneliness and examines the psychological and social characteristics that dispose people to them. Svendsen looks at the importance of friendship and love, and he examines how loneliness can impact our quality of life and affect our

physical and mental health. In a provocative move, he also argues that the main problem in our modern society is not that we have too much loneliness but rather too little solitude, and he looks to those moments when our loneliness can actually tell us profound things about ourselves and our place in the world. The result is a fascinating book about a complex and deeply meaningful part of our very being.

loneliness that examines the relation of consciousness to loneliness. It views loneliness from the inside as a universal human condition rather than attempting to explain it away as an aberration, a mental disorder, or a temporary state to be addressed by superficial therapy and psychiatric medication. • Provides key insight into the dynamics of loneliness, enabling readers to be able to recognize its sources and counter its insidious and invidious force—not only in one's self, but in others as well • Presents cross-disciplinary perspectives that addresses and critiques both philosophical and psychological views on loneliness • Reviews the works and words of philosophers from Descartes to Kant and Wittgenstein, and of psychologists from Freud to Erikson, Fromm, and Mahler • Authored by a

Drawing on the fields of psychology, literature, and philosophy, *Loneliness in Philosophy, Psychology, and Literature* argues that loneliness has been the universal concern of mankind since the Greek myths and dramas, the dialogues of Plato, and the treatises of Aristotle. Author Ben Lazare Mijuskovic, whose insights are culled from both his theoretical studies and his practical experiences, contends that loneliness has constituted a universal theme of Western thought from the Hellenic age into the contemporary period. In *Loneliness in Philosophy, Psychology, and Literature*, he shows how man has always felt alone and that the meaning

of man is loneliness. Presenting both a discussion and a philosophical inquiry into the nature of loneliness, Mijuskovic cites examples from more than one hundred writers on loneliness, including Erich Fromm, Frieda Fromm-Reichmann, Clark Moustakas, Rollo May, and James Howard in psychology; Thomas Hardy, Joseph Conrad, James Joyce, Thomas Wolfe and William Golding in literature; and Descartes, Kant, Kierkegaard, Nietzsche, and Sartre in philosophy. Insightful and comprehensive, *Loneliness in Philosophy, Psychology, and Literature* demonstrates that loneliness is the basic nature of humans and is an unavoidable condition that all must face. *European Review*, 21:2 (May, 2013), 309-311. and Literature (Bloomington, IN: iUniverse. 2012). Ben Lazare Mijuskovic offers in his book a very different approach to loneliness. According to him, far from being an occasional or temporary phenomenon, loneliness—or better the fear of loneliness—is the strongest motivational drive in human beings. He argues that “following the replenishment of air, water, nourishment, and sleep, the most insistent and immediate necessity is man desire to escape his loneliness,” to avoid the feeling of existential, human isolation” (p xxx). The Leibnizian image of the monad—as a self-enclosed “windowless” being—gives an acute portrait of this oppressive prison. To support this thesis, Mijuskovic uses an interdisciplinary approach--philosophy,

psychology, and literature—through which the “picture of man as continually fighting to escape the quasi-solipsistic prison of his frightening solitude” reverberates. Besides insisting on the primacy of our human concern to struggle with the spectre of loneliness, Mijuskovic has sought to account for the reasons why this is the case. The core of his argumentation relies on a theory of consciousness. In Western thought three dominant models can be distinguished: (a) the self-consciousness or reflexive model; (b) the empirical or behavioral model; and (c) the intentional or phenomenological model. According to the last two models, it is difficult, if not inconceivable, to understand how loneliness is even possible. Only the theory that attributes a reflexive nature to the powers of the mind can

adequately explain loneliness. The very constitution of our consciousness determines our confinement. “When a human being successfully ‘reflects’ on his self, reflexively captures his own intrinsically unique situation, he grasps (self-consciously) the nothingness of his existence as a ‘transcendental condition’—universal, necessary (a priori—structuring his entire being-in-the-world. This originary level of recognition is the ground-source for his sensory-cognitive awareness of loneliness” (p. 13). Silvana Mandolesi

In a time of social distancing and isolation, a meditation on the beauty of solitude from renowned Buddhist writer Stephen Batchelor
When world renowned Buddhist writer Stephen Batchelor turned sixty, he took a sabbatical from his teaching and turned his attention to solitude, a practice integral to the meditative traditions he has long studied and taught. He aimed to venture more deeply into solitude, discovering its full extent and depth. This beautiful literary collage documents his multifaceted explorations. Spending time in remote places, appreciating and making art,

practicing meditation and participating in retreats, drinking peyote and ayahuasca, and training himself to keep an open, questioning mind have all contributed to Batchelor's ability to be simultaneously alone and at ease. Mixed in with his personal narrative are inspiring stories from solitude's devoted practitioners, from the Buddha to Montaigne, from Vermeer to Agnes Martin. In a hyperconnected world that is at the same time plagued by social isolation, this book shows how to enjoy the inescapable solitude that is at the heart of human life.
