Email as a communication tool has been used since the 1960s. Commercial use of email is still relatively young. Today, email is dominated by one company: Google. Estimates show that over 50% of all people with email use Gmail! If you picked up this book, you probably have one or are considering getting one. For its email service, Gmail is easy enough to use--compose email, send email, done! But there's more to Gmail than sending and receiving email. How do you get not-Spam emails to stop showing up as Spam, for example? What on Earth are labels? And how do you get email forwarded to another inbox? If you want to be a power user, then read on!

If you are like millions of people, then your first email was probably AOL, Juno, or Hotmail. Email as a communication tool, however, has been around since the 60s.Gmail is the most widely used provider today, and if you are using it (or considering using it) there's probably a good reason: it does more than perhaps any other email provider out there.You can make phone calls with Gmail! You can make video calls with Gmail! You can send money to friends with Gmail! There's so much you can do! But how?This book will show you how. It will also walk you through all the basics. So, if you've never used email in your life, then it will give you all the information you need to get started.If you are ready to get the most out of Gmail, then let's get started!This book is not endorsed by Alphabet, Inc.
