The Mechanical and Physical Properties of the British Standard En Steels (B.S. 970-1955), Volume 3: En 40 to En 363 contains technical data and information in addition to mechanical and physical properties of the most commonly used range of steels in the United Kingdom, the B.S.970 En Steels. This volume is compiled by the Steel User Service of the British Iron and Steel Research Association. This book is divided into 40 chapters, each devoted to one En number. Each chapter contains various items of information, including Specification, Related Specifications, Applications, Welding, Machinability, Hot Working and Heat Treatment Temperatures, Physical Properties, Isothermal and Continuous Cooling Diagrams, Hardenability, Mechanical Properties at Room Temperatures, Mechanical Properties at Low Temperatures, Mechanical Properties at High Temperatures, and Torsional and Fatigue Properties. Some of the En specifications are subdivided into steels of slightly different composition. The tables and curves are reproduced to show graphically the effects of tempering temperature and of ruling section as heat treated and also to indicate the range of properties that be expected from steels conforming to a particular En number. This book will prove useful to engineers, designers, manufacturers, and users.

More Food: Road to Survival is a comprehensive analysis of agricultural improvements which can be achieved through scientific methods. This reference book gives information about strategies for increasing plant productivity, comparisons of agricultural models, the role of epigenetic events on crop production, yield enhancing physiological events (photosynthesis, germination, seedling emergence, seed properties, etc.), tools enabling efficient exploration of genetic variability, domestication of new species, the detection or induction of drought resistance and apomixes and plant breeding enhancement (through molecularly assisted breeding, genetic engineering, genome editing and next generation sequencing). The book concludes with a case study for the improvement of small grain cereals. Readers will gain an understanding of the biotechnological tools and concepts central to sustainable agriculture More Food: Road to Survival is, therefore, an ideal reference for agriculture students and researchers as well as professionals involved sustainability studies.

The true story of two mass-casualty incidents that occurred within days of each other at a US Air Force base. Using the words of the people who experienced the tragedies, the book provides in-depth look at the before, during and after of a preventable active-shooter incident and an avoidable fatal plane crash. The base psychiatrist knew the airman was dangerous. " This is the kind of patient who ... one day ... he ' s going to come back and kill you. " Aircrews knew the rogue pilot was dangerous. " We predicted the worst air-show disaster in history when we found out that he was gonna fly. " Written by Andy Brown, the man who ended the killing spree, the result of more than seven years of research. Brown "masterfully weaves" the two stories together in a powerful narrative. He also reveals the preparations he made that enabled him to end a pistol-versus-rifle gunfight with a 70 yard shot from his handgun. Part true crime, part law-enforcement biography memoir and part military history. Warnings Unheeded is presented in an objective style that shows what can happen when authorities become complacent, when the precursors of violence are ignored and the lessons from history are forgotten.

Join Larry, Bob, and all the other VeggieTales® characters as they learn how to help others in these four exciting adventures Each story in this collection uses humor and heart to convey important lessons about having good manners, helping others, listening, and sharing. This heart-stopping historical mystery from plot-master Avi will reach the wide audience it deserves with its fresh and compelling new cover treatment! The night Edmund's twin sister, Sis, goes missing, the streets of nineteenth-century Providence, Rhode Island, are filled with menacing shadows. As Edmund frantically searches the city, he tries to make sense of what happened: He only left Sis alone long enough to buy bread. How did she vanish in the mere minutes he was gone? Just as Edmund is about to lose hope of finding her, a stranger appears out of the mist and offers to help. But the man is gloomy and full of secrets. He seems to need Edmund to carry out plans of his own. Can Edmund trust him? And if he doesn't take the chance, how will he ever find his sister?
