Aghoris are devotees of Shiva manifested as Bhairava, and monists who seek moksha from the cycle of reincarnation or samsara. This freedom is a realization of the self's identity with the absolute. Because of this monistic doctrine, the Aghoris maintain that all opposites are ultimately illusory.

Aghora, described in this volume as super-tantra , is a Path of Devotion to the Great Mother Goddess Kundalini, here manifesting with the Name and Image of the Goddess Tara. This way is one of extraordinary extremes and intensities, even for tantra, and its aim is nothing less than to destroy the human limitations of the practitioner, so that he or she becomes a super-human in fact, a kind of deity.

Book 2 of the trilogy explores the kundalini, the force of forces. Tantra, mantra, the sacred fire, chakras and consciousness. Written in the personable form of Vimalananda's storytelling and recounting of life's episodes we are able to truly enter the invisible realms.

The Aghora trilogy have been embraced world-wide for their frankness in broaching subjects generally avoided and their facility for making the 'unseen' real. We enter the world

of Vimalananda who teaches by story and living example.

Vol. copublished by Sadhana Publications, Floresville, Tx.

"More than four decades have passed since I met the Aghori Vimalananda, and it has been thirty-three years since I last heard him speak. Happily for me he permitted me to write down many of his musings so that I would have them to remind me of the wisdom that he embodied. And, thanks to his compassion for others, he instructed me to publish some of this material after he was gone, which I did in the three Aghora books, books that I continue to regularly read and that continue to offer me thought-provoking guidance at any step along my own path. An aghori is someone who

plunges so deep into darkness that he emerges into light. Aghora is a spiritual path that because of its extreme heterodoxy has been enough I cannot myself claim to be an aghori, the example that he thus set has inspired my own sophomoric attempts to transmute into equanimity all that is both gratifying and grotesque in life, focusing on the subtle world while living in mundane reality, for Vimalananda always emphasized the importance of living with reality." Dr. Robert E. Svoboda Illustrated by Satya Moses

The telling of mythic stories has always been a powerful form of therapy, bringing healing to people facing adversity. The greatness of Saturn is such a therapeutic myth, told and

retold through many centuries. Taken from the East Indian Vedic tradition, it honors the planet Saturn, who personifies time, limitations, loss, and all forms of adversity.

Tao and Dharma: Chinese Medicine and Ayurveda explores the enduring features of humanity's longest and continually practiced systems of medicine. These two indigenous healing arts arising independently in China and India communed and exchanged experience, techniques, and therapeutic substances over the epochs of their development. This book's interesting and valuable comparison provides a pioneer effort in examining side by side two great systems of medicine, studying closely the historical, theoretical and practical relationships.

Two renowned neuroscientists and pioneers in documenting the benefits of Transcendental Meditation give parents a guided tour of their children's brains through contemporary science and ancient Ayurvedic typology (parents can "type" their kids and themselves) for a wealth of methods and insights to maximize your child's learning and behavioral style. Dharma Parenting offers a uniquely individual approach to raising a happy and successful child. The word "dharma" means a way of living that upholds the path of evolution, maintains balance, and supports both prosperity and spiritual freedom. For the first time, we can understand why one child learns quickly and forgets quickly while another learns slowly and forgets slowly; why one

child is hyperactive and another slow moving; or why one falls asleep quickly but wakes in the night while another takes hours to fall asleep. Leading brain researchers Robert Keith Wallace and Frederick Travis combine knowledge from modern science, ancient Ayurveda, and their personal experience to show how to unfold the full potential of a child's brain, as well as how to nurture his or her inherent brilliance and goodness. The first tool of Dharma Parenting is to determine your child's--and your own--brain/body type through a simple quiz. The Eastern system of natural medicine called Ayurveda has used three distinct mind/body types (and combinations of these types) for thousands of years. Scientific studies suggest that there is a specific set of genetic, biochemical, and physiological

characteristics that underlie each of the three main Ayurveda mind/body types. Coupling old and new wisdom, Dharma Parenting offers unique insight into why a child is the way he or she is and reveals how to bring each child into a state of balance. Its language is readily comprehensible by parents of any cultural background, with real-life stories to illustrate areas of universal parental concern--such as emotions, behavior, language, learning styles, habits, diet, health issues, and, most importantly, the parent-child relationship.
