In 2001 Alfa Romeo brought out the five door 147 version which shares exactly the same lines as the 3 door car and has the neat styling touch carried over from the Alfa Romeo 156 of hidden door handles in the C pillars. In 2002 they released the mighty 3.2 litre V6 GTA. This 250 bhp front wheel drive animal really put some performance into the range; it is one of the fastest of the hot hatches available with a top speed in excess of 150 mph, and it is really not advisable to turn the ASR off ...

After saving Alfa Romeo from oblivion in 1987, it took Fiat nearly five years to debut the first new Alfa produced under its control. This is the story of how the competition versions of the 155/156/147 family of cars were developed and subsequently raced to many championship titles and race wins. Alfa Romeo's 155 saloon was a comprehensively successful racing touring car that won the German and world-wide DTM Championship, and later ITC races. The model also took on the role of representing the company in national touring car championships throughout the world, most notably winning the British Touring Car Championship in 1994. The 156 was Alfa's successor to the 155 and was also raced with much success. This book follows the development and competition history of this model too, along with its sibling, the 147. Together, these models kept the Alfa Romeo name at the pinnacle of motor sport for many years, from 1992 to 2006, and will become future motorsport classics.

Wolseley cars are easily recognised by their illuminated radiator badges and unique front grilles, distinguishing them from their Austin and Morris counterparts. All the models from 1948 to 1975 are covered in this informative guide. Illustrated with original colour photographs, and with detailed information including colour schemes, optional equipment and technical specifications, this book provides a complete history of the cars from 1948 to the end of production, as well as the Wolseley models built by the Nuffield organisation in the late forties. These classic British cars are rarely covered in other books, and never in as much detail as you will find here – this is the ultimate guide for all Wolseley enthusiasts!

Packed with information on stripping and rebuilding, tuning, jetting, and choke sizes. Application formulae help you calculate exactly the right setup for your car. Covers all Weber DCOE & Dellorto DHLA & DCO/SP carburettors.

Here is a fact and picture-packed book dedicated solely to the Giulia GT in all its forms including the fabulous lightweight GTA racer. Now an updated, large format third edition which includes over 100 new images and which is limited to 1500 copies.

The wedge-shaped V12 Lamborghini flagships were always spectacular – in shape, sound and performance. The Murciélago was an evolution of the Countach and the Diablo, and was as iconic in its time as its illustrious predecessors were in theirs. This book examines the Murcielago in detail, while casting a look back through Lamborghini's troubled history, to understand how the Murciélago came into being. Ferruccio Lamborghini, Patrick Minram, Megatech, Chrysler, and finally VW-Audi, all played their part in the birth of this modern classic. The book touches on the people and organisations involved in the production of this iconic car, before examining each of the model variants, and discusses the joys and tribulations of ownership.
