Performance tasks are highly effective tools to assist you in implementing rigorous standards. But how do you create, evaluate, and use such tools? In this bestselling book, educational experts Charlotte Danielson and Elizabeth Marquez explain how to construct and apply performance tasks to gauge students' deeper understanding of mathematical concepts at the middle school level. You'll learn how to: Evaluate the quality of performance tasks, whether you've written them yourself or found them online; Use performance tasks for instructional decision-making and to prepare students for summative assessments; Create your own performance tasks, or adapt pre-made tasks to best suit students' needs; Design and use scoring rubrics to evaluate complex performance tasks; Use your students' results to communicate more effectively with parents. This must-have second edition is fully aligned to the Common Core State Standards and assessments and includes a variety of new performance tasks and rubrics, along with samples of student work. Additionally, downloadable student handout versions of all the performance tasks are available as free eResources from our website (www.routledge.com/9781138906914), so you can easily distribute them to your class.

Create programs that prepare students for college, careers, and the new and challenging assessments of the Common Core State Standards Written for all educators but with an emphasis on those at the secondary level, this important resource shows how to develop programs that truly prepare students for both the Common Core assessments and for college and career readiness. Based on multiple research studies conducted by Conley as well as experience he has gained from working with dozens of high schools that succeed with a wide range of students, the book provides specific strategies for teaching the CCSS in ways that improve readiness for college and careers for the full range of students. Draws from research-based models for creating programs for high school students that will ensure readiness for tests and for college and beyond Includes strategies and practices for teachers to help students develop postsecondary preparedness Is the third in a series of books on readiness written by David Conley, including College Knowledge and College and Career Ready Teachers can use this valuable resource to understand the "big picture" behind the Common Core State Standards, how to teach to them in ways that prepare students for new, challenging assessments being implemented over the next few years and, more importantly, how to help all students be ready for learning beyond high school.

This book offers practical methods, templates, and rubrics for collecting and analyzing data, and includes innovative ideas for building trust, including students in the process,
