we will first explore such pioneering presocratic philosophers as Thales, Anaximander, Xenophanes, Heraclitus and Parmenides and then proceed to the towering figures of Socrates and Plato.

~~Introduction To Ancient Philosophy~~

This one, on Ancient Philosophy, is written by Julia Annas, who also wrote the Very Short Introduction book on Plato. This is a good general introduction to Ancient Philosophy. To my mind, it spent too much time off topic for such a short book - there was discussion on more general matters, and some topics not related to Ancient Philosophy as such.

~~Ancient Philosophy: A Very Short Introduction: 26 (Very ...~~

That term comes from the ancient Greek term philosophia, which means literally love, philo, of wisdom, sophia. During the period we will be studying, it came to be employed to demarcate a distinctively rational kind of inquiry. On this way of conceiving a philosophy, it is not so much a body of doctrines.

John Dillon, Regius Professor of Greek (Emeritus) at Trinity College Dublin, Ireland * Existencia * Stephen Clark has written an original and absorbing introduction to ancient philosophy. It is especially notable for the pains Clark takes to situate familiar Greek texts within the larger cultural context of the contemporary Mediterranean world. I would unhesitatingly recommend this book to beginning students and experts alike.

~~Ancient Mediterranean Philosophy: An Introduction ...~~

Stoicism is a school of thought that dates back to ancient Greece, but which is still used today by those seeking to find harmony in a hectic, metropolitan, 21st century environment. As Massimo Pigliucci explains in the first chapters of his book, stoicism is often perceived as a passive philosophy, whereby you remain emotionless in all situations, untouched by any external factors.

Covers the period from the beginning of Greek Philosophy to St. Augustine.

This survey of the history of Western philosophy, from Thales to Augustine, introduces the central tenets of

Read Online An Introduction To Ancient Philosophy Littlefield Adams Quality

each philosopher or school within the cultural and historical aspect of the particular time. Topics covered include metaphysics, ethics and politics, and Epicureanism.

The tradition of ancient philosophy is a long, rich and varied one, in which a constant note is that of discussion and argument. This book introduces readers to some ancient debates to engage with the ancient developments of some themes. Getting away from the presentation of ancient philosophy as a succession of Great Thinkers, the book gives readers a sense of the freshness and liveliness of ancient philosophy, and of its wide variety of themes and styles. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

In this re-titled and substantially revised update of his *Classical Philosophy* (2003), Christopher Shields expands his coverage to include the Hellenistic era, and now offers an introduction to more than 1,000 years of ancient philosophy. From Thales and other Pre-Socratics through Socrates, Plato, and Aristotle, and on to Epicureanism, Stoicism, and Scepticism, *Ancient Philosophy* traces the important connections between these periods and individuals without losing sight of the novelties and dynamics unique to each. The coverage of Plato and Aristotle also has been

Read Online An Introduction To Ancient Philosophy Littlefield Adams Quality

Expanded. It now includes, for example, updated coverage of Plato's allegories of the cave and the divided line and the metaphor of the sun as well as features of Plato's epistemology. Shields also adds new discussion on Aristotle's theory of virtue and his approach to the Socratic problem of akrasia, or weakness of will. In terms of its structure, Ancient Philosophy is presented so that each philosophical position receives: (1) a brief introduction, (2) a sympathetic review of its principal motivations and primary supporting arguments, and (3) a short assessment, inviting readers to evaluate its plausibility. The result is a book that brings the ancient arguments to life, making the introduction truly contemporary. It will serve as both a first stop and a well visited resource for any student of the subject. Ancient Philosophy offers a vivid picture of the ideas that flourished at philosophy's long birth and considers their relevance, both to the historical development of the Western philosophical tradition, and to philosophy today.

Translated by Henrik Rosenmeier, A History of Ancient Philosophy charts the origins and development of ancient philosophical thought. For easy reference, the book is divided chronologically into six main parts. The sections are further divided into philosophers and philosophical movements: *Pre-Socratic Philosophy, including mythology, the Pythagoreans and Parmenides *The Great Century of Athens, including the Sophists and Socrates *Plato, including The Republic, The Symposium and The Timaeus *Aristotle, including The Physics, The Metaphysics and The Poetics *Hellenistic Philosophy, including the Sceptics,

The Stoics, the Epicureans and Cicero *Late Antiquity, including Neoplatonism, Origen and St Augustine. This comprehensive and meticulously documented book is structured to make ancient philosophical thought and ancient thinkers accessible. It contains: *full references to primary sources *detailed interpretations of key philosophical passages, including surveys of previous philosophical readings *an overview of the development of ancient philosophical thought *discussions of the relationships between philosophers and their ideas *analyses of key philosophical concepts and ideologies including ontology, epistemology, logic, semantics, moral and political philosophy, theology and aesthetics *explanations of Greek philosophical terminology.

Hadot shows how the schools, trends, and ideas of ancient Greek and Roman philosophy strove to transform the individual's mode of perceiving and being in the world. For the ancients, philosophical theory and the philosophical way of life were inseparably linked. Hadot asks us to consider whether and how this connection might be reestablished today.

Philosophy in the Ancient World: An Introduction--an intellectual history of the ancient world from the eighth century B.C.E. to the fifth century C.E., from Homer to Boethius--describes and evaluates ancient thought in its cultural setting, showing how it affected and was affected by that setting. The greatest philosophers (Parmenides, Plato, Aristotle, Augustine)

Read Online An Introduction To Ancient Philosophy Littlefield Adams Quality Paperback

and cultural figures (Homer, Euripides, Thucydides, Archimedes) and a number of lesser ones (Hesiod, Posidonius, Basil) receive careful description and evaluation. Philosophy in the Ancient World is ideally suited as a supplement for undergraduate courses in Ancient Philosophy and the History of Philosophy in the West.

Originally published in 1991, this book focuses on the concept of virtue, and in particular on the virtue of wisdom or knowledge, as it is found in the epic poems of Homer, some tragedies of Sophocles, selected writings of Plato, Aristotle, and the Stoic and Epicurean philosophers. The key questions discussed are the nature of the virtues, their relation to each other, and the relation between the virtues and happiness or well-being. This book provides the background and interpretative framework to make classical works on Ethics, such as Plato's Republic and Aristotle's Nicomachean Ethics, accessible to readers with no training in the classics.

Before Socrates, philosophers sought explanations for naturally-occurring phenomena from earthquakes and eclipses to the existence of the entire cosmos. But the Socratic era saw a great shift towards questions much closer to the human experience. Philosophers became concerned with life and how to live it, the nature of knowledge and reality, the soul and its relation to the body, and the place of human beings in the universe. Ancient philosophy expert, William J. Prior elegantly guides readers through philosophy's formative years, from the pre-Socratic to the Stoic and Epicurean schools. Combining a general discussion of

Read Online An Introduction To Ancient Philosophy Littlefield Adams Quality

movements with analysis of key passages from ancient texts, it is an enthralling insight into the evolution of philosophy and how the great thinkers of centuries gone by can still send our minds reeling today. For students and interested readers alike, this is the ideal introduction, opening the door to the philosophy's classic works and fascinating in its own right.
