Rich explores powerful and largely unknown energy structures--never before covered in-depth--to explain to readers the practical, proven methods to see, feel, and use energy while they master the use of energy structures to heal themselves and others physically, spiritually, mentally, and emotionally.

A comprehensive and fascinating study of Polarity Therapy, Esoteric Anatomy, and Somatic Psychology that reveals the vital role of energy in the healing arts Esoteric Anatomy offers a spiritual approach to massage, bodywork, and somatic psychology, demystifying an ancient transpersonal model for understanding energy in nature and working with consciousness in the healing arts. It offers a comprehensive health care system based on understanding the body as a field of conscious energy—a system that promotes healing, health building, and self-actualization. Author and spiritual healer Bruce Burger begins by introducing Polarity Therapy in a series of energy-balancing sessions that can be used in conjunction with other forms of therapy and bodywork. This holistic approach can alleviate physical, mental, emotional, and spiritual suffering, including clearing trauma from the cellular memory of the brain. Next, he turns his attention to Esoteric Anatomy in a section of essays that explore the role of energy—or life force—in the healing arts, drawing from the wisdom of ancient India. And finally, Burger builds upon his studies of Polarity Therapy and Esoteric Anatomy to present a unique system of Somatic Psychology that can promote further healing. Thorough, insightful, and complete with illustrations, Esoteric Anatomy is a fascinating course in energy medicine that can guide you toward better health, personal growth, and spiritual transformation.

In this, his most comprehensive and accessible study of influence, Bloom leads readers through the labyrinthine paths which link the writers and critics who have informed and inspired him for so many years.

Your soul is your essence as a human being. When you were conceived, if you believe in God, He shot a bolt of lightning into you that made you unique and original. He endowed you with gifts, talents and weaknesses that made you who you are or at least who you are spozed to be if you're smart enough to escape the brainwash of the world. If we were created by Nature, the outcome is still the same. I'm no different than the cat I play with every night. I watch him to observe him being himself, following his true nature. He is me in a different form, a living being following his true nature but this is where most of humanity gets off the boat – they don't follow their true natures. Leonardo Da Vinci said vitality and beauty are gifts of nature for those who live according to its laws and he was right. The only true purpose of life is to follow your true nature. All the wise, enlightened people who have ever lived live by this rule.
