This 1914 volume attempts to summarize the history of ancient India, and to make it intelligible to readers with an interest in modern India. Covering the period between the date of the Rig-veda (around 1200 BC) and the first century AD, the text provides a highly readable narrative containing key events and figures

It is rare in human history when one man's life changes the destiny of millions. Bhimrao Ramji Ambedkar was one such remarkable leader. An untiring crusader for human rights for the oppressed untouchables of India, Babasaheb, as he was fondly known, strove throughout his life to purge from society the evil of prejudice and injustice against his fellow brethren. Having suffered humiliation in his early years purely on the circumstance of his birth in a lower caste, Babasaheb Ambedkar became the voice of redemption from oppression for millions of his fellow men. From a humble background, he overcame many challenges to get a degree in law in the UK, and went to Columbia University in the US, where he imbibed a deep sense of justice and equality. After India's independence, his commitment to equality and freedom was enshrined by his work in the framing of the Indian Constitution as one of its principal architects. Babasaheb Ambedkar's hope of equality and tolerance in society remains as yet an unfulfilled dream in modern India. In the telling of the story on the life and times of this great icon of free India through this beautifully illustrated biography, Campfire aims to renew the spirit so dear to Babasaheb Ambedkar's heart of a just and tolerant India.

In a theater of war long forgotten and barely even known at the time, James Harry Hantzis and his fellow soldiers labored at a thankless task under oppressive conditions. Nonetheless, as Rails of War demonstrates, without the men of the 721st Railway Operating Battalion, the Allied forces would have been defeated in the China-Burma-India conflict in World War II. Steven James Hantzis's father served alongside other GI railroaders in overcoming danger, disease, fire, and monsoons to move the weight of war in the China-Burma-India theater. Torn from their predictable working-class lives, the men of the 721st journeyed fifteen thousand miles to Bengal, India, to do the impossible: build, maintain, and manage seven hundred miles of track through the most inhospitable environment imaginable. From the harrowing adventures of the Flying Tigers and Merrill's Marauders to detailed descriptions of grueling jungle operations and the Siege of Myitkyina, this is the remarkable story of the extraordinary men of the 721st, who moved an entire army to win the war.
