This aspect of the history and heritage of the "Black Jews" is dedicated to all oppressed African people whose religion differs from those who control the power of life and death over most of us. Out of this it is hoped that a better understanding between African people will prevail in spite of our religious differences. Remember,

religion is nothing more, or less, than a belief, and that any one of them is as Godly as another. Yosef A. A. Ben-Johnannan

Author Johanna Brandt shares a personal journey of living with cancer and her discovery of how the beneficial properties of grapes cured her disease by refreshing and purifying cell structures. The virtues of naturopathy are extolled, and readers are encouraged to detoxify their bodies and prevent disease (namely cancer) through a combination of fasting and a diet of grapes.

The gift of life's eternal wisdom! The cross and loop or circle symbol known as the Ankh has come to be one of the most widely recognized symbols in the world--honored and/or used in rituals by many religions in many cultures around the globe and through time. It gained huge popularity in the 60s when it became an anti-establishment, anti-war symbol, as Lon Milo Duquette points out in his introduction. The Ankh: Key of Life includes a silver-colored Ankh on a black silken cord and an informative illustrated book about the Ankh's history and meaning plus a plethora of ideas for wearing and

using your Ankh in a meaningful way. If any symbol on earth could hold such power it is certainly the Ankh. It is the consensus among many modern esotericists that the Ankh was designed to be recognized by the ancient eye as a simple sandal strap. This is my favorite theory for it suggests to me the secret that life is a journey each of us must make one step at a time. It's simply a matter of going--a process of voluntary movement--a willed commitment to move on, move up, and become something greater than we now are.

When the World Was Black: The Untold History of the World's First Civilizations (Volume Two of The Science of Self series) has been published in TWO parts. Why two? Because there are far too many stories that remain untold. We had over 200,000 years of Black history to tell - from the southern tip of Chile to the northernmost isles of Europe - and you can't do that justice in a 300-page book. So there are two parts, each consisting of 360 pages of groundbreaking history, digging deep into the story of all the world's original people. Part One covers the

Black origins of all the world's oldest cultures and societies, spanning more than 200,000 years of human history. Part Two tells the stories of the Black men and women who introduced urban civilization to the world over the last 20,000 years, up to the time of European contact. Each part has over 100 helpful maps, graphs, and photos, an 8-page full-color insert in the center, and over 300 footnotes and references for further research. "In this book, you'll learn about the history of Black people. I don't mean the history you learned in school, which most likely began with slavery and ended with the

Civil Rights Movement. I'm talking about Black history BEFORE that. Long before that. In this book, we'll cover over 200,000 years of Black history. For many of us, that sounds strange. We can't even imagine what the Black past was like before the slave trade, much less imagine that such a history goes back 200,000 years or more." "Part Two covers history from 20,000 years ago to the point of European contact. This is the time that prehistoric cultures grew into ancient urban civilizations, a transition known to historians as the "Neolithic Revolution."
