But Jeff VanderMeer is not interested in putting his readers at ease. With Annihilation--the first volume of The Southern Reach Trilogy--he carefully creates a yearning for answers, then boldly denies them, reminding us that being too eager to know too much can be dangerous. The story follows an expedition of four women who are known only by their professions: the Psychologist, the Surveyor, the Anthropologist, and the Biologist--nameless pawns tasked with exploring, discovering, and ...

Describes the 12th expedition to “ Area X, ” a region cut off from the continent for decades, by a group of intrepid women scientists who try to ignore the high mortality rates of those on the previous 11 missions. Original. 75,000 first printing.

Eleven secret government expeditions and few have returned unscathed--the first book in VanderMeer's exciting new Southern Reach Trilogy and soon to be a major motion picture Area X has been cut off from the rest of the continent for decades. Nature has reclaimed the last vestiges of human civilization, and the government is involved in sending secret missions to explore Area X. The first expedition returned with reports of a pristine, Edenic landscape; all the members of the second expedition committed suicide; the third expedition died in a hail of gunfire as its members turned on one another; the members of the eleventh expedition returned as shadows of their former selves, and within months of their return, all had died of aggressive cancer. Annihilation opens with the twelfth expedition. The group is composed of four women, including our narrator, a biologist. Their mission is to map the terrain and collect specimens; to record all of their observations, scientific and otherwise; and, above all, to avoid succumbing to the unpredictable effects of Area X itself. What they discover shocks them: first, a massive topographic anomaly that does not appear on any map; and second, life forms beyond anything they're equipped to understand. But it's the surprises that came across the border with them that change everything--the secrets of the expedition members themselves, including our narrator. What do they really know about Area X--and each other?

The New York Times best-seller, now in paperback! This paperback edition of the New York Times best-selling title expands the civil upheaval among the drow, one of the most popular races in the Forgotten Realms setting. Best-selling author R.A. Salvatore wrote the prologue to Annihilation and continues to consult on the series, lending his expertise as the author who brought drow society to the forefront of the Forgotten Realms setting. From the Paperback edition.

John Rodriguez, the new head of a secret agency tasked to monitor Area X—a lush and remote terrain mysteriously sequestered from civilization—is faced with disturbing truths about himself and the agency he has sworn to serve when the secrets of Area X begin to reveal themselves. Original. 50,000 first printing.

It is winter in Area X, the mysterious wilderness that has defied explanation for thirty years, rebuffing expedition after expedition, refusing to reveal its secrets. As Area X expands, the agency tasked with investigating and overseeing it--the Southern Reach--has collapsed on itself in confusion. Now one last, desperate team crosses the border, determined to reach a remote island that may hold the answers they've been seeking. If they fail, the outer world is in peril. Meanwhile, Acceptance tunnels ever deeper into the circumstances surrounding the creation of Area X--what initiated this unnatural upheaval? Among the many who have tried, who has gotten close to understanding Area X--and who may have been corrupted by it? In this last installment of Jeff VanderMeer's Southern Reach trilogy, the mysteries of Area X may be solved, but their consequences and implications are no less profound--or terrifying.

Annihilation is the first volume in Jeff VanderMeer's Southern Reach trilogy, Authority is the second, and Acceptance is the third. Area X—a remote and lush terrain—has been cut off from the rest of the continent for decades. Nature has reclaimed the last vestiges of human civilization. The first expedition returned with reports of a pristine, Edenic landscape; all the members of the second expedition committed suicide; the third expedition died in a hail of gunfire as its members turned on one another; the members of the eleventh expedition returned as shadows of their former selves, and within months of their return, all had died of aggressive cancer. This is the twelfth expedition. Their group is made up of four women: an anthropologist; a surveyor; a psychologist, the de facto leader; and our narrator, a biologist. Their mission is to map the terrain and collect specimens; to record all their observations, scientific and otherwise, of their surroundings and of one another; and, above all, to avoid being contaminated by Area X itself. They arrive expecting the unexpected, and Area X delivers—they discover a massive topographic anomaly and life forms that surpass understanding—but it's the surprises that came across the border with them, and the secrets the expedition members are keeping from one another, that change everything. After the disastrous twelfth expedition chronicled in Annihilation, the Southern Reach—the secret agency that monitors these expeditions—is in disarray. In Authority, John Rodriguez, aka “Control,” is the team's newly appointed head. From a series of interrogations, a cache of hidden notes and hours of profoundly troubling video footage, the secrets of Area X begin to reveal themselves—and what they expose pushes Control to confront disturbing truths about both himself and the agency he's promised to serve. And the consequences will spread much further than that. It is winter in Area X in Acceptance. A new team embarks across the border on a mission to find a member of a previous expedition who may have been left behind. As they press deeper into the unknown—navigating new terrain and new challenges—the threat to the outside world becomes more daunting. The mysteries of Area X may have been solved, but their consequences and implications are no less profound—or terrifying.

A Peculiar Peril is a head-spinning epic about three friends on a quest to protect the world from a threat as unknowable as it is terrifying, from the Nebula Award – winning and New York Times bestselling author of Annihilation, Jeff VanderMeer. Jonathan Lamshead stands to inherit his deceased grandfather's overstuffed mansion—a veritable cabinet of curiosities—once he and two schoolmates catalog its contents. But the three soon discover that the house is filled with far more than just oddities: It holds clues linking to an alt-Earth called Aurora, where the notorious English occultist Aleister Crowley has stormed back to life on a magic-fueled rampage across a surreal, through-the-looking-glass version of Europe replete with talking animals (and vegetables). Swept into encounters with allies more unpredictable than enemies, Jonathan pieces together his destiny as a member of a secret society devoted to keeping our world separate from Aurora. But as the ground shifts and allegiances change with every step, he and his friends sink ever deeper into a deadly pursuit of the profound evil that is also chasing after them.

A 2020 LOCUS AWARD FINALIST Jeff VanderMeer's Dead Astronauts presents a City with no name of its own where, in the shadow of the all-powerful Company, lives human and otherwise converge in terrifying and miraculous ways. At stake: the fate of the future, the fate of Earth—all the Earths. A messianic blue fox who slips through warrens of time and space on a mysterious mission. A homeless woman haunted by a demon who finds the key to all things in a strange journal. A giant leviathan of a fish, centuries old, who hides a secret, remembering a past that may not be its own. Three ragtag rebels waging an endless war for the fate of the world against an all-powerful corporation. A raving madman who wanders the desert lost in the past, haunted by his own creation: an invisible monster whose name he has forgotten and whose purpose remains hidden.
