sling load missions  
ashore or aboard  
ship. These manuals  
are a coordinated  
effort of the US Army,  
US Marine Corps, US  
Navy, US Air Force,  
and US Coast Guard.  
All services  
participate in the sling  
load certification  
program begun by the  
Army in 1984. These  
manuals include

Manual  
standardized rigging procedures and other information from that program. Efforts were made to standardize ground crew and hookup procedures and terminology. The terms "helicopter" and "aircraft" refer to vertical lift aircraft that participate in sling load operations.

Where service-unique

Manual requirements apply to an entire chapter or body of text, the service initials are at the beginning of the chapter or text.

Otherwise the initials are at the end of the applicable sentence.

The information in this manual will familiarize personnel with the sling sets, cargo nets, and other sling load

paperback book so  
you don't have to.

First you gotta find a  
good clean (legible)  
copy and make sure  
it's the latest version  
(not always easy).

Some documents  
found on the web are  
missing some pages  
or the image quality is  
so poor, they are  
difficult to read. If you  
find a good copy, you

could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much
