The witchfinder stood on the edge of the square at some distance from the burning stake, savouring his moment of triumph. He saw those witches fly. Did the crowds notice? No! Elspeth, her beauty melting before their eyes as if she were a fragrant candle, charmed them. But Matthew saw. He knew Elspeth survived. Wherever she is, he will find her. He will hunt her down, and one will die. Their soul cast down. It is his solemn vow. He will not suffer a witch to live. She rose with the hot swirling smoke, and tumbled through the centuries, from the clear cool air. All Hallows' Eve looms. A special day when the veil lifts and Elspeth has organised a party . . . A bewitchingly dark fairy tale set in the seventeenth and twenty-first centuries, Somerset.

Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.
