Edited and with an Introduction by Gordon Marino Basic Writings of Existentialism, unique to the Modern Library, presents the writings of key nineteenth- and twentieth-century thinkers broadly united by their belief that because life has no inherent meaning humans can discover, we must determine meaning for ourselves. This anthology brings together into one volume the most influential and commonly taught works of existentialism. Contributors include Simone de Beauvoir, Albert Camus, Fyodor Dostoevsky, Ralph Ellison, Martin Heidegger, Søren Kierkegaard, Friedrich Nietzsche, Jean-Paul Sartre, and Miguel de Unamuno y Jugo.

Argues that Nietzsche tried to create a specific literary character in his writings and discusses the paradoxes of his work
Introduction by Allen W. Wood With translations by F. Max Müller and Thomas K. Abbott The writings of Immanuel Kant became the cornerstone of all subsequent philosophical inquiry. They articulate the relationship between the human mind and all that it encounters and remain the most important influence on our concept of knowledge. As renowned Kant scholar Allen W. Wood writes in his Introduction, Kant "virtually laid the foundation for the way people in the last two centuries have confronted such widely differing subjects as the experience of beauty and the meaning of human history." Edited and compiled by Dr. Wood, Basic Writings of Kant stands as a comprehensive summary of Kant 's contributions to modern thought, and gathers together the most respected translations of Kant 's key moral and political writings.

In this volume is collected: Beyond Good and Evil, We Philologists and The Antichrist. Within these writings Nietzsche defines his refutation of the organized church and the supremacy of the human being. The role of the supreme human also shows up in here as Nietzsche continues to define his role.
An expert on Nietzsche presents highlights from The Birth of Tragedy, Thus Spake Zarathustra, Beyond Good and Evil, and other works, and explains their significance to modern readers.

AN NYRB Classics Original In 1869, at the age of twenty-four, the precociously brilliant Friedrich Nietzsche was appointed to a professorship of classical philology at the University of Basel. He seemed marked for a successful and conventional academic career. Then the philosophy of Schopenhauer and the music of Wagner transformed his ambitions. The genius of such thinkers and makers—the kind of genius that had emerged in ancient Greece—this alone was the touchstone for true understanding. But how was education to serve genius, especially in a modern society marked more and more by an unholy alliance between academic specialization, mass-market journalism, and the militarized state? Something more than sturdy scholarship was called for. A new way of teaching and questioning, a new philosophy. . . . What that new way might be was the question Nietzsche broached in five vivid, popular public lectures in Basel in 1872. Anti-Education presents a provocative and timely reckoning with what remains one of the central challenges of the modern world.

Traces the rise of Modernism in the arts from its inception in the mid-nineteenth century to its end in the wake of the development of Pop Art, analyzing its influences on the fields of literature, poetry, music, and other art forms and profiling key figures.
