Featuring hundreds of photographs, this lavishly illustrated guide to some of the most distinguished British brands takes a fascinating, behind-the-scenes look at their enduring success. Classic style and British manufacturing are both experiencing a boom in demand--driven by a desire among consumers for authentic, quality products. Britain is uniquely placed to benefit from this resurgence, given the number of heritage companies still producing at the top of their game. From the world-famous Barbour in South Shields in the north of England to John Lobb in London, many of these fine businesses remain in family ownership, protective of their traditions and justifiably proud of their products. Many are the bearers of warrants from the British Royal family, and all are over 100 years old. Horst Friedrichs explores the historic places where these British brands have become some of the strongest in the world: Johnston's of Elgin in the north of Scotland, Corgi socks in southern Wales, and John Smedley in Derbyshire. By highlighting the stories of these legendary brands--both new and old, grand and humble--Friedrichs and Crompton show how relevant these companies and their traditional production techniques still are. A Very British Heritage is a must-read for anyone that appreciates wellcrafted products and timeless style.

This anthology is in many ways a 'best of the best', containing gems from thirty-four of Britain's outstanding contemporary writers. It is a book to dip into, to read from cover to cover, to lend to friends and read again. It includes stories of love and crime, stories touched with comedy and the supernatural, stories set in London, Los Angeles, Bucharest and Tokyo. Above all, as you will discover, it satisfies Samuel Butler's anarchic pleasure principle: 'I should like to like Schumann's music better than I do; I daresay I could make myself like it better if I tried; but I do not like having to try to make myself like things; I like things that make me like them at once and no trying at all

"Everyone should have two copies - one for the car and one for the house to plan journeys. . . a reminder to think more about the places you pass and less about your route, because every British journey is through rich history." (Edward Stourton) From much-loved historian Neil Oliver, comes this beautifully written, kaleidoscopic history of a place with a story like no other. The British Isles, this archipelago of islands, is to Neil Oliver the best place in the world. From north to south, east to west it cradles astonishing beauty. The human story here is a million years old, and counting. But the tolerant, easygoing peace we enjoy has been hard won. We have made and known the best and worst of times. We have been hero and villain and all else in between, and we have learned some lessons. The Story of the British Isles in 100 Places is Neil's very personal account of what makes these islands so special, told through the places that have witnessed the unfolding of our history. Beginning with footprints made in the sand by humankind's earliest ancestors, he takes us via Romans and Vikings, the flowering of religion, through civil war, industrial revolution and two world wars. From windswept headlands to battlefields, ancient trees to magnificent cathedrals, each of his destinations is a place where, somehow, the spirit of the past seems to linger.
