The author's experience with the Medical Civic Action Program, and the corruption and evil aspects of the war. Operation Phoenix, drugs, My Lai, and a new theory on the assassination of John F Kennedy - Transcripts of Vet's Rap Sessions, heart-breaking and heart-warming poetry, PTSD, and the decline of morality in American society since that war.

Beginning with a basic primer on reverse engineering-including computer internals, operating systems, and assembly language-and then discussing the various applications of reverse engineering, this book provides readers with practical, in-depth techniques for software reverse engineering. The book is broken into two parts, the first deals with security-related reverse engineering and the second explores the more practical aspects of reverse engineering. In
