Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly conceivable socio-political environment. Even in Europe, where religion most frequently appeared tired and out of date, it flourished in a more muted charismatic form. When these two forms are added together, Pentecostalism and neo-Charismatism became common. Characterised by speaking in tongues, miracles, television evangelism and megachurches, it is also noted for its lack of doctrinal rigidity and its dynamism. Without the financial and military support of the state (as was the case with communism), it flourished in almost every country where it was allowed to flourish.

Rastafari: A Very Short Introduction provides an account of this widespread but often poorly understood movement. Ennis Williams offers a fresh interpretation of Rastafari that focuses on its religious beliefs and practices and its internal character and configuration. He examines its global spread, and its far-reaching influence on African states, black nationalism, and youth culture. The book includes an analysis of Rastafari's impact on the wider society of Jamaica and beyond; its role in challenging the structures of oppression and exploitation; and the complex relationship between Rastafarians and Africa.

India has a long, rich, and diverse tradition of philosophical thought, spanning some two and a half millennia and-half millennia. Sue Hamilton explores the development of Indian thought, and is structured around six schools which have achieved classic status. Each volume introduces Buddhism, looking at how the tradition began and how it evolved and explaining its central teachings and practices. Without the financial and military support of the state, Buddhism flourished in almost every country where it was allowed to flourish.

What does Tibetan Buddhism teach? Just what is the position of the Dalai Lama, and how will his succession be assured? This Very Short Introduction offers readers a superb overview of the teachings of the Buddha, as well as a succinct guide to his life, his legacy, and the evolution of Tibetan Buddhism. It explains the distinctive features of Buddhism, the Buddha, and his teachings in terms that are easily accessible to those who are curious to learn the most essential features of Tibetan Buddhist thought. This new edition has been extensively revised to include recent developments in Tibet and the Dalai Lama's leadership since the 2008 protests in Lhasa.

In the new edition of this lively and accessible Very Short Introduction to Buddhism, Damien Keown looks at all the important aspects of Buddhism's history, teachings, and practice. He examines who the Buddha was and what his teachings were. By considering how Buddhist thought has developed over the centuries, its impact on daily life in contemporary society, and the spread of Buddhism throughout the world, Keown considers how contemporary dilemmas can be faced from a Buddhist perspective. In this new edition Keown covers new developments in the world of Buddhism, including new teachings on the evolution of Buddhism throughout Asia, the material culture of Buddhism and its importance, new teachings on Buddhist ethics, new understanding of the nature of reality, and new understanding of the nature of suffering.

Buddhism: A Very Short Introduction introduces the reader to the teachings of the Buddha and to the workings of Buddhism as a living tradition. It explains how the traditions have attempted to understand the nature of reality in terms of an inner or spiritual quest, and how, through various disciplines, they have sought to achieve the final goal of enlightenment. Buddhism: A Very Short Introduction cucumbered the received Persian traditions, their vocabulary, and their vocabulary. What vocabulary do they mean?
