A comprehensive
guide to the design
and execution
ofsophisticated
exterior building
enclosures Focused
on the design process

Online Library Builder

for architects and related professionals, this book addresses the design and execution of sophisticated exterior building enclosures for a number of commercial building types and in a variety of building materials. It focuses on the design process by delineating

Online Library Builder

enclosure basics, the participants (owners, architects, engineers, consultants) and their roles and responsibilities through collaboration, and tracking the design process through construction. This comprehensive handbook covers all of the factors that affect the design

Online Library Builder

of a building enclosure, including function, visual aesthetics, performance requirements, and many other criteria. In-depth case studies of projects of various scales, types, and climate conditions illustrate the successful implementation of exterior wall

Online Library Builder

enclosure solutions in
brickmasonry, stone,
architectural concrete,
glass, and metals.

This unique and
indispensable guide:
Defines the functions,
physical
requirements,
designprinciples, and
types of exterior
building enclosures
Identifies the
participants in the

Online Library Builder

design and
construction process
and specifies their
roles and

responsibilities

Presents a step-by-
step process for the
design of

exteriorenclosures,
from defining goals
and developing
concepts

throughcreating
construction

Online Library Builder

Documents Reviews

the construction
process from bidding
and

negotiation through
the paper phase to
the "brick and mortar"
stage Provides details
on the properties of
exterior

enclosure materials,
including structural
considerations,
weather protection, fire

Online Library Builder

safety, and more

Covers a variety of materials, including brick masonry,

natural stone masonry, architectural concrete, metal framing and glass, and all-glass enclosures

Written by the technical director of the San Francisco office of Skidmore, Owings & Merrill, Exterior Building

Online Library Builder

Enclosures are an indispensable resource for architects, engineers, facade consultants, and green design consultants working on commercial building projects.

Take the mumbo jumbo out of contract law and ace your

Online Library Builder

Contracts course. This hands-on guide give you plain-English explanations of terminology and language used in contracts, showing you how to read and analyze cases and statues with ease.

This book examines energy efficiency in the Australian built

Online Library Builder

Environment and
presents current
developments with a
particular focus on the
temperate setting of
Victoria state. It is
divided into four main
parts discussing
policies, climate, and
carbon footprint and
presenting case
studies on the energy
performance and
indoor environmental

Online Library Builder

Quality of various building types. The book is intended for readers wanting to understand the various policies related to different buildings types and their energy performance.
