examples from architectural history, he proposes specific archetypes that illustrate how these elements vary over time and in what ways they affect us psychologically. The author argues for a basic distinction architecturally between inside and outside and examines the dynamic interaction between inside and outside space in terms of the archetypes. He also emphasises the shared aspects of our experience of architecture regardless of time or place. The book shows that these reactions to architecture are tied in with our bodily experience, and that we convey them to what we see. This means that the archetypes are also carriers of specific meanings, which in turn influence the experience of the relationships between inside and outside. The book further examines schematic postwar architecture and

I have one simple rule: no sexual contact. Yeah, I'm a male escort, but that doesn't mean my body's for sale. I provide companionship to women who can afford it and understand my rule. It's simple really. I need to be in control, not my body. Someone already screwed me once when I lost control, and not in the good way. So, no sexual contact. Sure. I'll kiss them, and I'll even give them a little strip tease if they don't mind seeing the scars from my SEAL days, but nothing more. Damn. At least that's the way it's supposed to be. The way it was. Until her. Until Serena. The little socialite gets under my skin and is hot as sin. I was just supposed to be her arm candy for a few events, but I can't help it. I want more.
