This slipcase of three volumes offers an expression of Oxfam's fundamental principles, that everyone has the right to an equitable share in the world's resources. It analyzes policy, procedure and practice in health, human rights, emergency relief and agricultural production.

Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database.

Submarine commander Aiexi Novskooy has been sprung from prison by a multibillion-dollar organization with a very special mission in mind. The company has designed a new submarine—the Vepr—which they will use to wreak havoc on international trade. To test its new weapon, Alexi must sink a cruise ship carrying the entire brass of the U.S Navy—effectively decapitating the American fleet. The legendary USS Devilfish is called in to stop the catastrophe, only to be ambushed by the ultra-advanced Vepr. With the Devilfish down, the Navy sends Captain “ Kelly ” McKee and the newest sub in the U.S. arsenal to hunt down and destroy the super sub. What they don ’ t realize is that Alexi has his own plans, which have him heading straight for the shores of America.
