Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Originally published over 100 years ago, A Century of Dishonor is Helen Jackson's eye-opening sketch of the U.S. government's often shameful mishandling of what was called the 'Indian problem'. Using official documents as authentic research materials, Jackson asserts that

the government and citizens of the United States were the cause of the ?problems?, and not the Native peoples. Broken treaties, inhuman treatment, restricted to reservations unfit for habitation or traditional lifestyle'all of these actions were taken against Indian tribes by a government that treated them with less consideration and compassion than that of a foreign country Copyright © Libri GmbH. Bernard M. Baruch - one of the most remarkable men of our time - was an office boy at nineteen, a Wall Street partner at twenty-five, and a millionaire before he was thirty-five. For some men this success would mark the climax of a career; for Baruch it was only the beginning of a still greater one. In the fifty years since he made his first fortune, Bernard Baruch has been a trusted counselor of Presidents, an adviser on social and economic reforms, a statesman who has worked with two political parties and won the respect of both. In this, the first volume of his memoirs, Mr. Baruch analyzes his personal philosophy and shows how it helped him solve the many problems that confronted him in his public life as chairman of the War Industries Board during World War I and as United States representative on the United Nations Atomic Energy Commission. Informal yet penetrating, intimate yet never losing sight of major events and issues, BARUCH: My Own Story is infused with the remarkable personality of a truly distinguished American.

Transcendent Teacher Learner Relationships: The Way of the Shamanic Teacher (Second Edition) explores the nature of the transcendent teacher learner relationship and precisely how such relationships of warmth, safety, mutual care, mutual respect and mutual trust are developed and maintained.

Precalculus is adaptable and designed to fit the needs of a variety of precalculus courses. It is a comprehensive text that covers more ground than a typical one- or two-semester college-level precalculus course. The content is organized by clearly-defined learning objectives, and includes worked examples that demonstrate problem-solving approaches in an accessible way. Coverage and Scope Precalculus contains twelve chapters, roughly divided into three groups. Chapters 1-4 discuss various types of functions, providing a foundation for the remainder of the course. Chapter 1: Functions Chapter 2: Linear Functions Chapter 3: Polynomial and Rational Functions Chapter 4: Exponential and Logarithmic Functions Chapters 5-8 focus on Trigonometry. In Precalculus, we approach trigonometry by first introducing angles and the unit circle, as opposed to the right triangle approach more commonly used in College Algebra and Trigonometry courses. Chapter 5: Trigonometric Functions Chapter 6: Periodic Functions Chapter 7: Trigonometric Identities and Equations Chapter 8: Further Applications of Trigonometry Chapters 9-12 present some advanced Precalculus topics that build on topics introduced in chapters 1-8. Most Precalculus syllabi include some of the topics in these chapters, but few include all. Instructors can select material as needed from this group of chapters, since they are not cumulative. Chapter 9: Systems of Equations and Inequalities Chapter 10: Analytic Geometry Chapter 11: Sequences, Probability and Counting Theory Chapter 12: Introduction to Calculus

A New England Girlhood, Outlined from Memory by Lucy Larcom, first published in 1889, is a rare manuscript, the original residing in one of the great libraries of the world. This book is a reproduction of that original, which has been scanned and cleaned by state-of-the-art publishing tools for better readability and enhanced appreciation. Restoration Editors' mission is to bring long out of print manuscripts
