Anyway, I'd come to respect the bag. It was our good luck charm. But when my dad kept it close, it meant we were going to need good luck. We drove through the city center, heading east toward my grandparents' flat. We passed the golden gates of Buckingham Palace, the big stone column in Trafalgar Square. London is a

Your power tools for making the complex comprehensible Now more than ever, our students are being asked to do highly advanced thinking, talking, and writing around their reading. If only there were ingenious new tools that could give our students the space to tease apart complex ideas in order to comprehend and wield their understandings into a new whole. Good news: these tools exist--Mining Complex Text. You'll learn how graphic organizers can: Help students read, reread, and take notes on a text Promote students' oral sharing of information and their ideas Elevate organized note-making from complex text(s) Scaffold students' narrative and informational writing

This volume offers the first comprehensive overview of the evolution over time of a foundational concept of the Egyptian afterlife beliefs, the Duat, or netherworld. The Duat is a complicated, multifaceted notion, which was never canonized into a single version of the beyond, but offered instead a variety of alternatives attempting to describe the metaphysical realms beyond the visible world, and beyond life. Theological speculations gave rise to a rich textual and visual repertoire, which underwent a process of evolution over thousands of years, during which newer ideas and images were constantly introduced. Through the analysis of royal and non-royal funerary texts from the late Old Kingdom to the end of the New Kingdom, this book traces the development of the conceptualization of the notion of Duat, outlining what it encompassed and where it was imagined to be located. In addition to the translation and discussion of the most significant passages of the texts analyzed, each chapter also provides an overview of the individual compositions and of the relevant theological, cosmological, and astronomical notions complementing the conceptual framework, of which the Duat formed but a part. Additionally, discussions of concurrent changes in Egyptian culture, society, and ideology are included in order to clarify the context in which afterlife beliefs and related texts evolved. An analysis of the correlation between funerary compositions and their material supports complements the study, emphasizing the Egyptians' belief in a magical synergy between texts, images, and their contexts in the activation of a suitable, effective afterlife for the recipients of the texts.

"Exploring Egypt's lost underworld for the first time"--Cover.

Spectrum's Complete Learning + Videos Grade 5 Workbook will help your child navigate through fifth grade and give you the tools you need to make sure your child learns everything they need to know for future math, reading, and language arts success. This innovative fifth grade workbook features lessons and activities that focus on math, reading, and language arts, as well as instructional videos to help strengthen skills needed for future academic success. Each chapter features chapter introductions that focus on the what, why, and how of each lesson, with standards-based drills and skill practice. A QR code is available to scan after each lesson, linking to a free video that reinforces each topic—a great tool for visual learners. Parents love using this workbook for added practice from home, and teachers love to incorporate the reading, ELA, and math book into hands-on lesson plans and activities--tracking student progress with the answer key in the back of the 5th grade workbook. For more than 20 years, Spectrum has provided solutions for parents and teachers who want to help their children get ahead and exceed learning goals. Spectrum supports your child's educational journey every step of the way.

Including both fiction and non-fiction text types and genres, this work is graded and organised into five cross-curricular strands. These full-colour readers are accompanied by teacher's guides and resource sheets, featuring appropriately linked ideas and suggestions for Guided Writing activities.

A radical reinterpretation of the Pyramid Texts as shamanic mystical wisdom rather than funerary rituals • Reveals the mystical nature of Egyptian civilization denied by orthodox Egyptologists • Examines the similarity between the pharaoh's afterlife voyage and shamanic journeying • Shows shamanism to be the foundation of the Egyptian mystical tradition To the Greek philosophers and other peoples of the ancient world, Egypt was regarded as the home of a profound mystical wisdom. While there are many today who still share that view, the consensus of most Egyptologists is that no evidence exists that Egypt possessed any mystical tradition whatsoever. Jeremy Naydler's radical reinterpretation of the Pyramid Texts--the earliest body of religious literature to have survived from ancient Egypt--places these documents into the ritual context in which they belong. Until now, the Pyramid Texts have been viewed primarily as royal funerary texts that were used in the liturgy of the dead pharaoh or to aid him in his afterlife journey--this emphasis on funerary interpretation has served only to externalize what were actually experiences of the living, not the dead, king. In order to understand the character and significance of the extreme psychological states the pharaoh experienced--states often involving perilous encounters with alternate realities--we need to approach them as spiritual and religious phenomena that reveal the extraordinary possibilities of human consciousness. It is the shamanic spiritual tradition, argues Naydler, that is the undercurrent of the Pyramid Texts and that holds the key to understanding both the true nature of these experiences and the basis of ancient Egyptian mysticism.

This book helps schools deepen the RTI experience by extending the processes beyond initial implementation. Examples from real schools show how to apply RTI in reading, math, and behavior at elementary and secondary schools. All critical stakeholders in the school community will get a clear sense of their contribution to successful implementation.

Who has not seen a picture of the Great Pyramid of Egypt, massive in size but deceptively simple in shape, and not wondered how that shape was determined? Starting in the late eighteenth century, eleven main theories were proposed to explain the shape of the Great Pyramid. Even though some of these theories are well known, there has never been a detailed examination of their origins and dissemination. Twenty years of research using original and difficult-to-obtain source material has allowed Roger Herz-Fischler to piece together the intriguing story of these theories. Archaeological evidence and ancient Egyptian mathematical texts are discussed in order to place the theories in their proper historical context. The theories themselves are examined, not as abstract mathematical discourses, but as writings by individual authors, both well known and obscure, who were influenced by the intellectual and social climate of their time. Among results discussed are the close links of some of the pyramid theories with other theories, such as the theory of evolution, as well as the relationship between the pyramid theories and the struggle against the introduction of the metric system. Of special note is the chapter examining how some theories spread whereas others were rejected. This book has been written to be accessible to a wide audience, yet four appendixes, detailed endnotes and an exhaustive bibliography provide specialists with the references expected in a scholarly work.

"The most remarkable piece of ground in the World" W. M. Flinders Petrie 1883 The Pyramid Complexes of Khufu, Khafre, and Menkaure have stood on the Giza Plateau for 4,600 years. They have been scientifically studied for the last 300 years; yet this is the first book that brings together all three into one volume. Here is a complete detailed look at the Giza pyramids and their complexes - the Sphinx, subsidiary pyramids, temples, boat pits, and enclosures. The descriptions are supplemented by almost 300 photos and drawings to provide the reader a detail look which can only be surpassed by being there in person with a very knowledgeable guide. In addition Charles Rigano provides new ideas on: • How Khufu was interred in his Great Pyramid. • How the first robbers gained entry and robbed Khufu's pyramid. • How Caliph Al Mamun in 820AD really penetrated the Great Pyramid. • Why Heterpheres "tomb" is at Giza. • Why there is a field of stone bases near Khafre's Pyramid. • The initial smaller plan for Khafre's Pyramid. • Conclusive evidence that ties the Sphinx to Khafre. • How Menkaure's Burial Chamber and Inclined Passage were built.
