Digital Learning & Online Textbooks – Cengage

Succeed in chemistry with the clear explanations, problem-solving strategies, and dynamic study tools of CHEMISTRY & CHEMICAL REACTIVITY, 9e. Combining thorough instruction with the powerful multimedia tools you need to develop a deeper understanding of general chemistry concepts, the text emphasizes the visual nature of chemistry, illustrating the close interrelationship of the macroscopic, symbolic, and particulate levels of chemistry. The art program illustrates each of these levels in engaging detail--and is fully integrated with key media components. In addition access to OWLv2 may be purchased separately or at a special price if packaged with this text. OWLv2 is an online homework and tutorial system that helps you maximize your study time and improve your success in the course. OWLv2 includes an interactive eBook, as well as hundreds of guided simulations, animations, and video clips. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Help your students succeed in chemistry with the clear explanations, problem-solving strategies, and dynamic study tools of CHEMISTRY & CHEMICAL REACTIVITY, Tenth Edition. Recognized as one of the most progressive and engaging General Chemistry texts in the market, Kotz, Treichel, Townsend and Treichel help students develop a deeper understanding of general chemistry concepts. The text emphasizes the visual nature of chemistry, illustrating the close interrelationship of the macroscopic, symbolic, and particulate levels of chemistry with an art program that illustrates each of these levels in engaging detail. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Revised to help students obtain a higher level of understanding of general chemistry concepts, CHEMISTRY & CHEMICAL REACTIVITY, 7th Edition provides the most robust homework/assessment tools ever offered in chemistry. The Enhanced Review Edition combines the text's signature logical organization, macro to micro orientation, and superior art program with new exam preparation sections designed to help students better prepare for multiple chapter examinations. Let's Review sections present study tips, key points lists, and new exam-type questions for multiple chapters grouped according to where most exams occur in the course. The Enhanced Review Edition includes the same integration of media as the standard edition, which includes hundreds of guided simulations, animations, video clips, and a personal tutor. Online Web-based Learning (OWL) is a fully customizable homework system with an optional e-book that maximizes study time and your options for assignments and is available for separate purchase or in a package with your text. Additional more challenging end-of-chapter study questions, which are fully assignable in OWL, give you more choices. And for the student on the go, the new Go Chemistry mini video lectures and flash cards provide the perfect quick review. Quality writing, seamless technology integration, and a rich ancillary package remain the hallmarks of the text. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Improve your performance at exam time with this manual's detailed solutions to the blue-numbered end-of-chapter Study Questions found in the text. This comprehensive guide helps you develop a deeper intuitive understanding of chapter material through constant reinforcement and practice. Solutions match the problem-solving strategies used in the text.

This book 's porpuses isn 't to replace de textbook, it 's just to use like a study guide to supplement your textbook and the class notes. Each chapter int it includes a

section of learning goals, important terms, concept test, practice problems, and practice test. In addition, many chapters include study hints that may help students to avoid some of the most common misunderstandings and mistakes regarding this material.

Taking an evidence-first big picture approach, *Chemistry: Human Activity, Chemical Reactivity* encourages students to think like a chemist, develop critical understanding of what chemistry is, why it is important and how chemists arrive at their discoveries. Flipping the traditional model of presenting facts and building to applications, this text begins with contexts that are real-life and matter to students – from doping in sports, to the chemistry behind the treads of wall-climbing robots. Informed by the latest chemical education research, *Chemistry: Human Activity, Chemical Reactivity* presents chemistry as the exciting, developing human activity that it is, rather than a body of facts, theories, and skills handed down from the past. Along with the innovative MindTap Reader and OWLv2 learning platform, this text uses unique case studies and critically acclaimed interactive e-resources to help students learn chemistry and how it is helping to address global challenges of the 21st century.

Kotz/Treichel/Weaver's *Chemistry and Chemical Reactivity*, Sixth Enhanced Review Edition includes unique Let's Review sections that are designed to help students prepare for multiple chapter exams. These new sections provide additional questions, including molecular and applied problems, linked to chapter goals and corresponding media resources. The Enhanced Review Edition is softbound and less expensive than the standard textbook. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

*CHEMISTRY & CHEMICAL REACTIVITY*, 7e, combines thorough instruction with powerful multimedia tools to give you a deeper understanding of general chemistry concepts. The book has a long-standing reputation for logical organization; macro to micro orientation; a superior art program; and state-of-the-art media, which is expanded in the new edition. The text clearly emphasizes the visual nature of chemistry and illustrates the close interrelationship of the macroscopic, symbolic, and particulate levels of chemistry. With clear writing, seamless technology integration, and robust homework/assessment tools, *CHEMISTRY & CHEMICAL REACTIVITY*, 7e, equips you with tools to empower the mastery, assignment, and assessment of chemical principles. The text's art program reveals these three levels in engaging detail--and is fully integrated with new key media components. The Web-based tutorial CengageNOW™ generates a personalized study plan to meet your specific needs and includes Go Chemistry mini video lectures and flash cards that offer the perfect quick review for students on the go. Fully customizable OWL is a Web-based homework system that maximizes study time and offers an optional e-book. With hundreds of guided simulations, animations, video clips, and more, *CHEMISTRY & CHEMICAL REACTIVITY*, 7e, is more completely integrated with accompanying technology than any other text on the market.
