Drawing on detailed case studies across a range of languages, including English, German, Dutch, Italian, Portuguese, Polish, Czech, Russian, Lithuanian and Greek, this book examines the different factors that determine the outcome of the interaction between borrowing and word formation. Historically, borrowing has largely been studied from etymological and lexicographical perspectives and word formation has been included in morphology. However, this book focuses on their mutual influence and interaction. Bringing together a range of contributors, each chapter illustrates how borrowing and word formation are in competition as alternative naming processes, while also showing how they can influence each other. The case studies are framed by an introduction that describes the general background and a conclusion that summarises the main findings.

Choose Wisely! Once a literary bad boy, the only lines Professor Sebastian Swift does these days are Browning, Frost and Cummings. When a student he helped to disappear becomes a suspect in a murder, he races to find the boy and convince him to give himself up before his police chief lover figures out he's involved. Max likes being lied to even less than he likes sonnets. Yet his instincts--and his heart--tell him his boyfriend is being played and a dangerous enemy may not stop until Swift is heading up his own dead poet's society.

An art form comes of age when it is imitated, then parodied and finally repeated in pastiche. Crime and detective fiction is now so well established in different formats that it lends itself easily to these literary forms. After a brief history of the genre is an analysis of a large number of parody books and short stories, with details of correspondence and interviews the writer has had with masters of the craft, like Georges Simenon and Margaret Millar. The next section covers those books written by teams of six or more crime writers. The pastiche section deals with a number of books and short stories in-depth, crime stories for younger readers, and the exploits of literary detectives and criminals. "Do It Yourself Sleuthing" covers dossiers, games and books of solvable short crime stories. This leads naturally to all forms of parody and pastiche in films, theater, television and radio, including stage and film musicals.
