This is a collection of photographs compiled by the author during his years of working as a surgeon and lecturer at Katurba Medical College. They show the extreme conditions of disease with which the patient presents before surgery. Each photo is described, the cause of the disease is explained, and the surgical treatment is suggested. There are 250 photos in full colour spread across 14 chapters, dealing with head and neck diseases, through all body systems, as well as more specialised unique conditions. This book will be useful to all surgical trainees and practising surgeons.

Based on the best-selling Clinical Ophthalmology: A Systematic Approach, 7th Edition, by Jack J Kanski and Brad Bowling, this synopsis distills the essential information needed to quickly and accurately diagnose and manage a comprehensive range of ophthalmic disorders. Ideally used as an on-the-go reference for the busy clinician and a review guide for those preparing for examinations. Key information is provided at a glance for the busy practitioner, or as a study aid for students. Easy to navigate, each condition is systematically presented. Extensively illustrated, with a full-color clinical photograph of each important condition. Updated throughout with the latest guidance in medical and surgical therapies. Includes over 800 colour illustrations, many of which are new. Access the complete contents and downloadable image bank online.

Fully revised and updated based on valuable reader feedback, Aldeen and Rosenbaum's 1200 Questions to Help You Pass the Emergency Medicine Boards, Third Edition gives you the tools you need to pass the ABEM board exam on the first try. Questions are slightly more difficult than the average exam question, in order to challenge and add to your knowledge and fully prepare you for questions you're likely to see. Every question in this Third Edition has been reviewed for quality and relevance, ensuring that this unique study tool is an ideal choice to prepare for both the in-service residency exam and the board exam in emergency medicine.

Pathophysiology: A Practical Approach, Second Edition is a must have text for teaching undergraduates the complex concepts related to pathophysiology. The Second edition offers an innovative, user-friendly approach to this subject and serves as a practical guide to pathophysiology. This text focuses on the most critical content taking the learner into consideration and has been crafted in a unique manner which provides ease of reading and the use of colorful graphics to bring complex content to life. Pathophysiology: A Practical Approach, Second Edition features updated information resulting from research and current epidemiological trends. Additionally, the author incorporates a concept-based approach which aligns with the recommendations from both the Institute of Medicine and the Robert Wood Johnson Foundation to promote clinical reasoning and lifelong learning. With the current rapid development of ophthalmic sciences, it is difficult for ophthalmologists to remain fully up to date with all areas of clinical specialty. The second edition of this atlas describes the latest advances in clinical ophthalmology. Each chapter deals with a separate part of the eye, discussing different diseases and disorders that may be encountered by ophthalmologists. Each condition is accompanied by concise descriptions of major and minor signs, as well as detailed photographs illustrating the disease. This comprehensive new edition features 3750 full colour images and illustrations, including more than 600 additional photographs. Images from the first edition have been replaced with better quality photographs taken with the Haag-Streit BX-900 Photo-Slit Lamp and the Zeiss FF 450 Plus Fundus camera.
