The Secret World of American Communism (1995), filled with revelations about Communist party covert operations in the United States, created an international sensation. Now the American authors of that book, along with Soviet archivist Kyrill M. Anderson, offer a second volume of profound social, political, and historical importance. Based on documents newly available from Russian archives, The Soviet World of American Communism conclusively demonstrates the continuous and intimate ties between the Communist Party of the United States of America (CPUSA) and Moscow. In a meticulous investigation of the personal, organizational, and financial links between the CPUSA and Soviet Communists, the authors find that Moscow maintained extensive control of the CPUSA, even of the American rank and file. The widely accepted view that the CPUSA

was essentially an idealistic organization devoted to the pursuit of social justice must be radically revised, say the authors. Although individuals within the organization may not have been aware of Moscow's influence, the leaders of the organization most definitely were. The authors explain and annotate ninety-five documents, reproduced here in their entirety or in large part, and they quote from hundreds of others to reveal the actual workings of the American Communist party. They show that:

- the USSR covertly provided a large part of the CPUSA budget from the early 1920s to the end of the 1980s;
- Moscow issued orders, which the CPUSA obeyed, on issues ranging from what political decisions the American party should make to who should serve in the party leadership;
- the CPUSA endorsed Stalin's purges and the persecution of Americans living in Russia.

Why is Iran a danger to the US and the World? Its unchecked program for developing nuclear power is a cover, but the covert nuclear weapons program is the real danger. Nuclear confrontation and nuclear terrorism are on the horizon. Dr. Michael Schnorr's research and compilation of Iran's burgeoning nuclear program, its terrorist ties and its resolve to confront the US in a nuclear showdown is compelling. Comparing and contrasting the First Cold War with the New Cold War, evidence of a pattern of international aggression and response is described which
