Reggae's influence can be heard in the popular music of nations in a variety of continents. In Dubwise, Klive Walker takes a fresh look at Bob Marley's global impact, specifically his legacy in the Caribbean diaspora. While considering Marley's status as an international reggae icon, Walker also discusses the vital contributions to reggae culture authored by other important Jamaican innovators such as poet Louise Bennett, hand drummer Oswald 'Count Ossie' Williams, jazz saxophonist Joe Harriott, ska trombonist Don Drummond and singer Dennis Brown.

The quintessential folk poet of the Third World, Bob Marley influenced generations of musicians and

writers. He was a performer who held true to his religious and cultural heritage, who rallied against injustice, and who became an internationally revered musical icon. Renowned poet and scholar Kwame Dawes analyses in detail his verses and lyrics, matching them against the social and political climate of the time and asking of them what it meant to be a black, Jamaican man thrust into the limelight of western society; how change can be affected through music; and how political and ethical truths can be woven into song. His lyrics are poignant, powerful and poetic and this book showcases his written word. Updated to include an interactive timeline of his life, formed with videos and imagery, as well as integrated Spotify playlists, this is the perfect companion to Bob Marley's recordings.

"Racism, Eh? is the first publication that examines racism within the broad Canadian context. This anthology brings together some of the visionaries who are seeking to illuminate the topics of race and racism in Canada through the analysis of historical and contemporary issues, which address race and racism as both material and psychic phenomena. Fundamentally interdisciplinary in nature, this text will be an invaluable resource for undergraduate and graduate students, academics studying or practicing within the Humanities and the Social Sciences, and anyone seeking information on what has been a little explored and poorly understood Canadian issue."--pub. desc.

This book closely examines how the enterprise of running mirrors the key facets of life. The author draws parallels between running and life so as to enhance the lessons that readers can draw from each of these phenomena. Running resembles life, and the latter carries a myriad of lessons for the former. This book is not about running per se, nor is it meant to be an all-encompassing self-help manual about life, though it contains these aspects to a certain degree. Such an undertaking would be preposterous in the least. You can, however, draw valuable lessons for personal mastery within organizational, societal, and familial relationships and other relationship contexts. The book's purpose is to drive the dual message that invisible chains shackle an unexamined life and that the activity of running competitively or not entails a lot of principles, processes, guidelines, theories, and lessons that can apply to everyday life experiences and enhance the human experience. Consequently, the book is meant for professional and social runners and those who appreciate running from the comfort of their couch, remote in hand. It explores the seemingly and misleadingly easy exercise of running as a source for profound lessons about the sometimes complex business of living.

Himalaya Calling: The Origins of China and India will take the reader through a journey through the periods of time and places starting from the beginning of civilization from the Himalayas and extending into the Himalaya Sphere. The chapters in the book enable the reader to view the dynamics of China and

India from the geo-civilizational paradigm of the Himalaya Sphere. Among the other new concepts introduced is a new understanding of the Buddhist tryst with China's developing process as a super-state and the interaction of the dynamics of 'wandering ascetics' from India and 'householder' in China. It conveys the message of two 'civilization-states' as akin to oases in the desert of modern 'nation-states' and advocates the Indian spiritual goal of 'Vasudhaiva kutumbakam' (the whole world is one single family) and the Chinese spiritual goal of 'tianxia datong ????' (grand harmony all-under-Heaven). The book is a must-read for all the leaders and policy makers of China and India. It is a culmination of decades of learning by the author who has lived in both the countries. The reader will begin to understand the shared origins of China and India and how the civilizations have been linked through the ages. The book is timely as it coincides with the commemoration of the diamond jubilee (50th anniversary) of the Panchsheel (Five Principles of Peaceful Coexistence) in 2014.

The public lynching of George Floyd re-exposed the rotten underbelly of America and this, together with the disproportionate impact of COVID-19 on Black and Brown communities, the global Black Lives Matter protests, and the racist, xenophobic demagoguery of Donald Trump, resurrected the old debates about medical racism, race relations, implicit bias, vaccine nationalism/vaccine imperialism, structural inequality, police brutality, vaccine hesitancy, unethical human experimentation, vaccine diplomacy, qualified immunity, conspiracy theories, and social justice. Then in 2020 the American Medical Association formally declared racism a public health crisis, defined racism as a social determinant of health, and embraced the idea of medical schools teaching medical students about racism. Alas, the nursing curriculum is somewhat silent on these questions. Decolonizing the nursing curriculum, long overdue, is therefore imperative. This book explores the question of decolonizing the nursing curriculum from the angles of postcolonial theory, critiquing the Western literary canon, American history, literary criticism, African literature, cultural criticism, Afrocentric theory, democracy, African-

Popular music is a cultural form much rooted in space and place. This book interprets the meaning of music from a spatial perspective and, in doing so it furthers our understanding of broader social relations and trends, including identity, attachment to place, cultural economies, social activism and politics. The book's editors have brought together a team of scholars to discuss the latest innovative thinking on music and its geographies, illustrated with a fascinating range of case studies from the USA, Canada, the Caribbean, Australia and Great Britain.

A comprehensive, engaging and timely Bakhtinian examination of the ways in which the music and lyrics of Pacific reggae, aspects of performance, a record album cover and the social and political context construct social commentary, resistance and protest. Framed predominantly by the theory and philosophy of Russian literary theorist Mikhail Bakhtin, this innovative investigation of the discourse of Pacific reggae in New Zealand produces a multi-faceted analysis of the dialogic relationships that create meaning in this genre of popular music. It focuses on the award-winning EP What's Be Happen? by the band Herbs, which has been recognised for its ground-breaking music and social commentary in the early 1980s. Herbs' songs address the racism and ideology of the apartheid regime in South Africa and the relationship between sport and politics, as well as universally relevant conflicts over race relations, the experiences of migrants, and the historic and ongoing loss of indigenous people's lands. The book demonstrates the striking compatibility between Bakhtin's theorisation of utterances as ethical acts and reggae music, along with the Rastafari philosophy that underpins it, which speaks of resistance to social injustice, of ethical values and the kind of society people seek to achieve. It will appeal to a cross-disciplinary audience of scholars in Bakhtin studies; discourse analysis; popular cultural studies; the literary analysis of popular music and lyrics, and those with an interest in the culture and politics of Aotearoa New Zealand and the Pacific region.

With a Bible and guitar, Bob Marley set out to conquer the world of popular music. Rising from humble origins to international stardom, he worked tirelessly to spread a dual message of resistance and redemption--a message inspired by his reading of scripture. Marley's constant reliance on the Bible

throughout the stages of his artistic and spiritual paths is an integral part of his story that has not been sufficiently told--until now. This is the first book written on Bob Marley as biblical interpreter. It answers the question, What light does biblical scholarship shed on Marley's interpretation, and what can Marley teach biblical scholars? Focusing on the parts of the Bible that Marley quotes most often in his lyrics, MacNeil provides a close analysis of Marley's interpretation. For students of Marley, this affords a deeper appreciation and understanding of his thought and his art. For students of scripture, it demonstrates the nature of Marley's unique contribution to the field of biblical interpretation, which can be appreciated as an excellent example of what R. S. Sugirtharajah calls vernacular interpretation of scripture.
