Beyond Consumer Behavior: How Buying Habits Shape Identity. Solomon's Consumer Behavior: Buying, Having, and Being deepens the study of consumer behavior into an investigation of how having (or not having) certain products affects our lives. Solomon looks at how possessions influence how we feel about ourselves and each other, especially in the canon of social media and the digital age.

Consumer behaviour is more than buying things; it also embraces the study of how having (or not having) things affects our lives and how possessions influence the way we feel about ourselves and each other - our state of being. The 3rd edition of Consumer Behaviour is presented in a contemporary framework based around the buying, having and being model and in an Australasian context. Students will be engaged and excited by the most current research, real-world examples, global coverage, managerial applications and ethical examples to cover all facets of

consumer behaviour. With new coverage of Personality and incorporating real consumer data, Consumer Behaviour is fresh, relevant and up-to-date. It provides students with the best possible introduction to this fascinating discipline.

In this best-selling text BY social workers and FOR social workers, Charles Zastrow and Karen K. Kirst-Ashman, nationally prominent social work educators and authors, guide students in assessing and evaluating how individuals function within families, groups, organizations and communities during the key stages of the human life span. Zastrow, a member of the CSWE Commission on Accreditation, and Kirst-Ashman, a CSWE Board member, incorporate the most recent CSWE curriculum recommendations throughout. Using an effective, chronological life-span approach, the authors present separate

chapters on biological, psychological, and social impacts at the different life-span stages. Chapter One introduces a practical Systems Impact Model that students can apply throughout the book to help them understand individual behavior in macro, mezzo, and micro settings. Consistent with the curriculum policy statements of the CSWE, content on social work values and ethics, diversity, social and economic justice and populations-at-risk is also included. Zastrow and Kirst-Ashman make theories relevant to myriad practice settings by providing case examples, illustrations, photos, and exercises in every chapter. With thorough coverage of theories at all levels (micro, mezzo, macro) the book is comprehensive and balanced and provides students with a sound base on which to build assessment skills.

UNDERSTANDING ABNORMAL

BEHAVIOR, 11th Edition offers balanced and clear coverage of psychopathology theories, research, and clinical implications. Fully updated to reflect DSM-5 and the newest scientific, psychological, multicultural and psychiatric research, the book introduces and integrates the Multipath Model of Mental Disorders to explain how four essential factors-biological, psychological, social, and sociocultural-interact to cause mental disorders. A focus on resilience highlights prevention and recovery from the symptoms of various disorders. This edition also continues its emphasis on the multicultural, sociocultural and diversity aspects of abnormal psychology. The authors present material in a lively and engaging manner, connecting topics to real-world case studies, current events, and issues of particular importance and

Incorporating the thinking, feeling, and behaving dimensions of human experience, the tenth edition of Corey's best-selling book helps students compare and contrast the therapeutic models expressed in counseling theories. Corey introduces students to the major theories (psychoanalytic, Adlerian, existential, person-centered, Gestalt, reality, behavior, cognitive-behavior, family systems, feminist, postmodern, and integrative approaches) and demonstrates how each theory can be applied to two cases (Stan and Gwen). With his trademark style, he
