Set against a thrilling political background, *Crimson Skies* is a romantic and rock-strewn tale of two successful but lonely individuals, one betrayed by own blood and another torn away from love and togetherness under cruel circumstances. Raghav Aditya Shankar, a 42-year-old politician and leader, at a childhood friend's wedding, by chance comes across Dr. Areeti Ray, 34, a young introvert woman. Somehow, Raghav is drawn to her and soon discovers her connection with his painful past, which he had been living for 15 years. Despite many efforts to triumph over her, he fails but repudiates to give up. She unknowingly unveils many secrets that question his faith and further strengthen the pledge to have her. However, close to reaching the destination, a misunderstanding clouds his mind. What follows next is the interesting voyage of Raghav and Areeti, facing their own apprehensions and challenges created by the past and the present. The hurdles don't seem to end and, in every turn, a new secret, hidden characters, unprecedented twists and dark chapters from the history continue to batter their resilience and resolution. It is a story of friendship, love, sacrifice, separation, pain, secrets, mystery, betrayal and vengeance. It emphasizes how in the face of adversities love can fail, but yet stand up to fight, and how sometimes to survive amongst enemies we need to become the weapon itself.

Online Library Crimson Skies

In 1937, America disintegrates into a variety of warring nation states all vying for control of the skies, with pilots Nathan Zachary, Paladin Blake, and Jonathan "Genghis" Kahn all leading their squadrons on thrilling missions in the air. Original. (Tie-in novel to the new Xbox game Crimson Skies) (Science Fiction & Fantasy)

Left for dead on the range, a cowboy vows revenge Fifty thoroughbreds. Three hundred miles. Four thousand dollars. Driving those horses across Cheyenne territory is a crazy risk, but the only alternative is to give up the ranch. For the sake of his boss, Kendo takes the job—so long as he can bring seven good men with him. But in this part of the West, few trustworthy men can be found. The trouble comes not from the Cheyenne, but from three of Kendo's fellow riders, who don't hesitate when they get a chance to take the herd and leave Kendo bleeding to death on the open range. Lost, exposed, and without a horse, Kendo needs a miracle to make it back to civilization. But he has far bigger plans than mere survival. First, he wants the bullet out of his back. Next, he wants to rescue the herd. And then, when the time comes, he will savor the bloody flavor of vengeance.

The post-apocalyptic saga takes you headlong into the fury that only Mother Nature can dish out—and that only those who have prepared for can survive. Massive electrical storms roll across the upper peninsula of Michigan as a result of the supervolcano eruption. Destructive lightning sets the city on fire, illuminating the night with blood-red skies. Alexa Smeth and her town of Moose Creek are finding it more and more difficult to survive the latest unleashing of natural—and manmade—disasters. The land is becoming more uninhabitable, and those who choose to stay might end up digging their own graves. "Learning from survival fiction is one of my passions although I do recognize and accept that many of the scenarios are quite extreme. Still, as a prepper that is continually challenged by the pursuit of knowledge, I keep reading and keep playing the 'what if' game in my own mind. One of the best series of books for doing so is Deborah D. Moore's The Journal series." —Backdoor Survival

The first series follows the transformation of Trevor "Rogue" Rheese from law-abiding security agent to a pirate with a heart of gold.

These novels, based on the exciting Microsoft computer game (scheduled for release in the third quarter of 2000) and FASA's popular board game, introduce the world of Crimson Skies. In the 1930s -- of an alternative-history America -- air militias from fragmented nation-states fight to protect themselves from pirates and other raiders. In this America, the planes are faster, the guns are bigger, and life is more exciting.
