definitive guide to understanding non-traditional asset classes. Alternatives are a disparate group of investments that are distinguished from long-only, publicly traded investments in stocks, bonds, and cash (often referred to as traditional investments). Alternative investments include real estate, commodities, infrastructure, and other non-traditional investments such as private equity or debt and hedge funds. They are attractive to investors because of the potential for portfolio diversification resulting in a higher risk-adjusted return for the portfolio. Alternative Investments and its accompanying workbook (sold separately) lead students and investment professionals

through the many characteristics of non-traditional assets, including: Narrow specialization of the investment managers
Relatively low correlation of returns with those of traditional investments
Less regulation and less transparency than traditional investments
Limited historical risk and return data
Unique legal and tax considerations
Higher fees, often including performance or incentive fees
Concentrated portfolios
Restrictions on redemptions (i.e. “lockups” and “gates”)
