Immigration detention is the policy of holding individuals suspected of visa violations, illegal entry or unauthorized arrival, as well as those subject to deportation and removal until a decision is made by immigration authorities to grant a visa and release them into the community, or to repatriate them to their country of departure. Mandatory detention refers to the practice of compulsorily detaining or imprisoning people seeking political asylum, or who are considered to be illegal immigrant

"Details how American immigration law and policy have increasingly relied on incarceration, locking up thousands of immigrants not because they pose any real danger, but as a collective expression of moral panic and hostility toward perceived outsiders." David Cole [back cover].

The events of 2016 catapulted immigration policy to the forefront of public debate, and Donald Trump's administration has signaled a harsh turn in enforcement. Yet the deportation, detention, and border-control policies that North American and European countries have embraced are by no means new. In this book, sociologists David C. Brotherton and Philip Kretsedemas bring together an interdisciplinary group of contributors to reconsider the immigration policies of the Obama era and beyond in terms of a decades-long "age of punishment." Immigration Policy in the Age of Punishment takes a critical, interdisciplinary, and transnational look at current issues surrounding immigration in the U.S. and abroad. It examines key features of this age of punishment, connecting neoliberal governance, global labor markets, and the national obsession with securing borders to explain critical research and theory on immigration enforcement. Contributors document the continuities between presidential administrations and across countries from many perspectives, with chapters discussing Canada, Australia, France, the UK, the Dominican Republic, and Mexico in addition to the U.S. They offer macro-level analyses of deportations and border enforcement, analyses of national policy and jurisprudence, and ethnographic accounts of the daily life experience of the prison-to-deportation pipeline, the making of deportability, and post-deportation transitions for noncitizens. This

Get Free Detained Immigration Laws And The Expanding I N S Jail

book highlights new directions in critical immigration policy and enforcement and deportation studies with the aim of problematizing the age of punishment that currently reigns over borders and those who seek to cross them.

Dreams and Nightmares takes a critical look at the challenges and dilemmas of immigration policy and practice in the absence of comprehensive immigration reform. The experiences of children and youth provide a prism through which the interwoven dynamics and consequences of immigration policy become apparent. Using a unique sociolegal perspective, authors Zatz and Rodriguez examine the mechanisms by which immigration policies and practices mitigate or exacerbate harm to vulnerable youth. They pay particular attention to prosecutorial discretion, assessing its potential and limitations for resolving issues involving parental detention and deportation, unaccompanied minors, and Dreamers who came to the United States as young children. The book demonstrates how these policies and practices offer a means of prioritizing immigration enforcement in ways that alleviate harm to children, and why they remain controversial and vulnerable to political challenges.

This book offers a unique comparative assessment of the evolution of immigration detention systems in European Union member states since the onset of the "refugee crisis." By applying an analytical framework premised on international human rights law in assessing domestic detention regimes, the book reveals the extent to which EU legislation has led to the adoption of laws and practices that may disregard fundamental rights and standards. While emphasizing policies and laws adopted in response to the "refugee crisis," the volume also shows how these policies have evolved—and in many cases grown more restrictive—even as the "crisis" has begun to recede from the borders of many European countries. To sharpen awareness of contrasting developments across the region, the book's country chapters are organised into geographic sections that reveal how variations in migration pressures have in some cases resulted in contrasting detention practices even as the EU directives have sought to harmonise immigration laws. A critical focus of the book are the evolving domestic norms related to grounds for detention, length of detention, non-custodial "alternatives to detention," the treatment of children, and conditions of detention. With its systematic and comparative assessment of immigration detention regimes across the EU, the book will be helpful for both academics and practitioners who seek a comprehensive guide to the evolution of one of today's more important human rights dilemmas—states' efforts to control global migration.

This innovative casebook approaches immigration law and policy from a public interest perspective with a special emphasis on issues of social justice. Along with cases and statutory material, *Immigration*

Law and Social Justice employs a variety of materials from appellate cases, client examples, article excerpts, and hypotheticals. These materials not only provide the basic framework for immigration law, but also engage students with the greater social, political, and economic context necessary to understand the movement of immigrants to the United States, as well as the human impact of immigration law enforcement and administration. Through examples, notes and questions that raise the social, racial, and political questions of admission and enforcement, as well as discussion of public interest lawyers' strategies, this casebook advances students' understanding of the creative approaches used in the field. Ultimately, this book encourages students to think broadly about relevant social, economic, and political forces. New to the Second Edition: Supreme Court decisions on expedited removal and DACA Analysis of the Trump administration approaches to relief from removal, judicial review, and the rights of noncitizens Major Supreme Court decisions, including *Trump v. Hawaii* (Muslim ban) and *Dimaya v. Sessions* (2018) (aggravated felonies) Administrative decisions such as *Matter of A-C-M-* (material support bar), *Matter of A-B-* (domestic violence and particular social group) Developments in how immigration courts define convictions Additional/updated material on: History of U.S. immigration laws Race-conscious lawyering; racial justice and immigrant rights New ICE enforcement guidance under the Biden administration; *U.S. v. California* (upholding California's sanctuary policies) Citizenship for orphans; renunciation of citizenship Public charge grounds and Title 42 COVID exclusions; I-601A waiver; firearms offenses; crimes involving moral turpitude Restrictions on bond hearings imposed by the Trump administration; monitoring of children's detention centers under *Flores* settlement; *Zepeda Rivas v. Jennings* (requirements on ICE detention facilities in light of COVID-19) Border wall and related litigation; Operation Streamline; worksite enforcement; state and local cooperation *Pereira v. Sessions* and *Niz-Chavez v. Garland* (defective Notice to Appear and eligibility for cancellation of removal); cancellation of removal Examination of right to counsel for minors and for non-detained respondents with mental challenges; ineffective assistance of counsel; restrictions imposed by Trump administration on immigration court continuances; problems with distance videoconference hearings New refugee numbers under the Biden administration; past persecution; membership in particular social groups Professors and student will benefit from: Deep background on the social context of immigration law and its enforcement in the context of a sophisticated examination of the technicalities of relevant statutory and administrative law Materials encouraging students to learn relevant law with an eye toward potential advocacy, including litigation strategies, and which challenge students to evaluate critically the mutually constitutive work of race and immigration law Contextual background to understand immigration and immigration enforcement Unique focus on immigration and social justice, as well as public interest immigration lawyering Focus on issues of contemporary relevance, highlighting some of the most

contentious areas of immigration law and policy Materials designed to facilitate student understanding of the letter of immigration law, and to encourage students to think creatively about possible reform Integrated critical materials exploring the role of race, class, religion, gender, and disability in immigration law and policy Problems designed to encourage active learning and application of law

A leading scholar's powerful, in-depth look at the imprisonment of immigrants addressing the intersection of immigration and the criminal justice system For most of America's history, we simply did not lock people up for migrating here. Yet over the last thirty years, the federal and state governments have increasingly tapped their powers to incarcerate people accused of violating immigration laws. As a result, almost 400,000 people annually now spend some time locked up pending the result of a civil or criminal immigration proceeding. In *Migrating to Prison*, leading scholar César Cuauhtémoc García Hernández takes a hard look at the immigration prison system's origins, how it currently operates, and why. He tackles the emergence of immigration imprisonment in the mid-1980s, with enforcement resources deployed disproportionately against Latinos, and he looks at both the outsized presence of private prisons and how those on the political right continue, disingenuously, to link immigration imprisonment with national security risks and threats to the rule of law. Interspersed with powerful stories of people caught up in the immigration imprisonment industry, including children who have spent most of their lives in immigrant detention, *Migrating to Prison* is an urgent call for the abolition of immigration prisons and a radical reimagining of the United States: who belongs and on what criteria is that determination made?

The impact of the U.S. immigration and legal systems on children and youth In the United States, millions of children are undocumented migrants or have family members who came to the country without authorization. The unique challenges with which these children and youth must cope demand special attention. *Illegal Encounters* considers illegality, deportability, and deportation in the lives of young people—those who migrate as well as those who are affected by the migration of others. A primary focus of the volume is to understand how children and youth encounter, move through, or are outside of a range of legal processes, including border enforcement, immigration detention, federal custody, courts, and state processes of categorization. Even if young people do not directly interact with state immigration systems—because they are U.S. citizens or have avoided detention—they are nonetheless deeply affected by the reach of the government in its many forms. Contributors privilege the voices and everyday experiences of immigrant children and youth themselves. By combining different perspectives from advocates, service providers, attorneys, researchers, and young immigrants, the volume presents rich accounts that can contribute to informed debates and policy reforms. *Illegal Encounters* sheds light on the unique ways in which policies,

Get Free Detained Immigration Laws And The Expanding I N S Jail

laws, and legal categories shape so much of daily life for young immigrants. The book makes visible the burdens, hopes, and potential of a population of young people and their families who have been largely hidden from public view and are currently under siege, following their movement through complicated immigration systems and institutions in the United States.

"Casebook focusing on immigration law and social justice for second- and third-year law students."--
