Om intellektuella och nationella frågan i Tyskland.

War das Kursbuch ein "Vademekum" der Protestbewegung? Diese Zuschreibung dient der Arbeit als roter Faden, um nicht nur "1968", sondern auch die vielen linken Protestbewegungen danach in den Blick zu nehmen. Die Studie analysiert Zeitschriften, die in einer Wechselwirkung mit dem Kursbuch standen wie "Das Argument", "Konkret" oder "Kürbiskern". Die Kursbuch-Impulse wirkten vor allem durch den literarisch-politischen Zugang der "Dossiers" dynamisierend auf die Reste der Studentenbewegung. Die Heftverantwortlichen Hans Magnus Enzensberger und Karl Markus Michel regten Diskussionen über den "neuen Faschismus" an und wirkten als transnationale "Vermittler" von Utopien über China, die "Dritte Welt" und Lateinamerika. Erstmals werden auch die "Kursbögen" analysiert, die die linke Sprachlosigkeit der 1970er-Jahre mit Humor, Ernst und Provokation bedeutend erweiterten. Die Kursbuch-Geschichte ist damit ein wichtiger Teil der Kultur-, Intellektuellen- sowie Bild- und Textgeschichte der Bundesrepublik.

The Federal Republic of Germany has long been held up as a 'model society' on account of its economic and social policy achievements. Largely ignored, however, has been the crucial part played by extra-parliamentary protest in the maturing of democracy in that society. In this, the first comprehensive study of the subject in English, the authors trace the rich history of political protest in West Germany and examine the political role of critical intellectuals. The book will give the reader a good understanding of the crucial changes that have taken place in the political culture of the Federal Republic since the mid 1960s.

Norman Birnbaum has contributed to Toward a Critical Sociology as an author.Norman Birnbaum is University Professor at Georgetown University Law School and the author of The Crisis of Industrial Society and Toward a Critical Sociology (both from OUP). A founding editor of New Left Review, he has served on the board of Partisan Review and The Nation . He lives in Washington, D.C.

In the decades following the Second World War, North America and Western Europe experienced widespread secularization and dechristianization; many scholars have pinpointed the 1960s as a pivotally important period in this decline. The Sixties and Beyond examines the scope and significance of dechristianization in the western world between 1945 and 2000. A thematically wide-ranging and interdisciplinary collection, The Sixties and Beyond uses a framework that compares the social and cultural experiences of North America and Western Europe during this period. The internationally based contributors examine the dynamic place of Christianity in both private lives and public discourses and practices by assessing issues such as gender relations, family life, religious education, the changing relationship of church and state, and the internal dynamics of religious organizations. The Sixties and Beyond is an excellent contribution to the burgeoning scholarship on the 1960s as well as to the history of Christianity in the western world.

An influential social critic and a major social thinker, Norman Birnbaum has collected here, for the first time, a number of important essays. Written over the last twenty years, they range from the fate of sociology to the problematic end of Marxism. Two questions inspire these essays. If thinkers are prisoners of their political contexts, how can thought apprehend historical movement? Can moral imagination alter social constraints? Birnbaum sees sociology as historical and philosophical commentary, shaped by politics. In a close and subtle examination of the Marxist legacy, he makes an innovative analytical move and turns Marxism upon itself. His inquiry includes an essay on the Marxist theory of religion, an essay which is itself a contribution to the debate of society and spirituality. An inquiry into the antithesis of Marxism and psychoanalysis asks if any project of human self-transformation is still plausible. In an essay dated 1984, he anticipates the collapse of the Communist regimes and new conflicts in the West. In a stringent article written after the sixties, but which speaks to the nineties, Birnbaum considers the technocratic servitude of the liberal university. Finally, he describes the contradictory advice offered to President Mitterrand when he convened the world's intellectual vanguard in Paris in 1983. Birnbaum concludes, half in melancholy and half in hope, that the intellect's critical tasks are unending. Historians, political thinkers, sociologists, and theologians will find their central themes in this collection, as will students of modern culture. They are written, however not for the academy alone, but for a general public confronting continuous and profoundchange.

Hermann Kappelhoff casts the evolution of cinema as an ongoing struggle to relate audiences to their historical moment. Appreciating cinema's unique ability to bind concrete living conditions to individual experience (which existing political institutions cannot), he reads films by Sergei Eisenstein and Pedro Almodóvar, by the New Objectivity and the New Hollywood, to demonstrate how cinema situates spectators within society. Kappelhoff applies the Deleuzean practice of "thinking in images" to his analysis of films and incorporates the approaches of Jacques Rancière and Richard Rorty, who see politics in the permanent reconfiguration of poetic forms. This enables him to conceptualize film as a medium that continually renews the audiovisual spaces and temporalities through which audiences confront reality. Revitalizing the reading of films by Visconti, Fassbinder, Kubrick, Friedkin, and others, Kappelhoff affirms cinema's historical significance while discovering its engagement with politics as a realm of experience.
