Almost everything you've read about formatting pictures for Kindle is wrong. The advice offered by Kindle experts and even Amazon itself can give images that are tiny, blocky, noisy, or wildly inconsistent on different Kindles. Aaron Shepard, author of

acclaimed books on Kindle and POD publishing, brings his years of experience in book design, webmastering, and photography to bear on a single question: How do you make pictures look great on the Kindle? He answers that question, while also providing beginners a basic course in picture editing. Along the way, he discusses how to keep Microsoft Word from sneakily degrading your pictures; how to adjust HTML code to show images at their best; how to make part of a picture transparent for Night and Sepia modes; how to boost the power of your cover image as a marketing tool; and how to create anything from children's books to photography books to poetry books within minutes with the Kindle Comic Creator. Best of all, you don't have to take his word for any of it. The proof is right in the book, with samples of many kinds of pictures you might use -- photos, paintings, drawings, diagrams, tables, screenshots,

The exploding cost of health care in the United States is a source of widespread alarm. Similarly, the upward spiral of college tuition fees is cause for serious concern. In this concise and illuminating book, well-known economist William J. Baumol explores the causes of these seemingly intractable problems and offers a surprisingly simple explanation. Baumol identifies the "cost disease" as a major source of rapidly rising costs in service sectors of the economy. Once we understand that disease, he explains, effective responses become apparent. Baumol presents his analysis with characteristic clarity, tracing the fast-rising prices of health

Eleven-year-old Isabella's blended family is more divided than ever in this "timely but genuine" (Publishers Weekly) story about divorce and racial identity from the award-winning and New York Times bestselling author of *Out of My Mind*, Sharon M. Draper. Eleven-year-old Isabella's parents are divorced, so she has to switch lives every week: One week she's Isabella with her dad, his girlfriend Anastasia, and her son Darren living in a fancy house where they are one of the only black families in the neighborhood.

The next week she's Izzy with her mom and her boyfriend John-Mark in a small, not-so-fancy house that she loves. Because of this, Isabella has always felt pulled between two worlds. And now that her parents are divorced, it seems their fights are even worse, and they're always about HER. Isabella feels completely stuck in the middle, split and divided between them more than ever. And she is beginning to realize that being split between Mom and Dad involves more than switching houses, switching nicknames, switching backpacks: it's also about switching identities. Her dad is black, her mom is white, and strangers are always commenting: "You're so exotic!" "You look so unusual." "But what are you really?" She knows what they're really saying: "You don't look like your parents." "You're different." "What race are you really?" And when her parents, who both get engaged at the same time, get in

their biggest fight ever, Isabella doesn't just feel divided, she feels ripped in two. What does it mean to be half white or half black? To belong to half mom and half dad? And if you're only seen as half of this and half of that, how can you ever feel whole? It seems like nothing can bring Isabella's family together again—until the worst thing happens. Isabella and Darren are stopped by the police. A cell phone is mistaken for a gun. And shots are fired.
