desire for leaning into my budding career. Although I was already aware of some of the inequities that women and people of color face in the workplace, there were a number of experimental studies, statistics, and stories presented in Lean In for Graduates that opened my eyes to additional aspects of gender and racial inequality.

best-selling guide to finding and getting the most out of a first job shares professional advice for résumé writing, recommended interviewing practices and salary negotiation.

The #1 international best seller *In Lean In*, Sheryl Sandberg reignited the conversation around women in the workplace. Sandberg is chief operating officer of Facebook and coauthor of *Option B* with Adam Grant. In 2010, she gave an electrifying TED talk in which she described how women unintentionally hold themselves back in their careers. Her talk, which has been viewed more than six million times, encouraged women to “sit at the table,” seek challenges, take risks, and pursue their goals with gusto. *Lean In* continues that conversation, combining personal anecdotes, hard data, and compelling research to change the conversation from what women can’t do to what they can. Sandberg provides practical advice on negotiation techniques, mentorship, and building a satisfying career. She describes specific steps women can take to combine professional achievement with personal fulfillment, and demonstrates how men can benefit by supporting women both in the workplace and at home. Written with humor and wisdom, *Lean In* is a revelatory, inspiring call to action and a blueprint for individual growth that will empower women around the world to achieve their full potential.

Informed by the work of scholars and labor activists who have interrogated the various forms of inequity produced and reproduced by institutions of higher education under neoliberalism, Lean Semesters serves as a timely and accessible call to action.

Is big business on its way out? The author shows that the big firm is alive and well and becoming more flexible and efficient. He makes the case that although smaller companies have an important role to play, long term economic growth lies with the country's largest global companies.

Why aren't the great, qualified women already in tech being hired or promoted? Should people who don't fit in seek to join an institution that is actively hostile to them? Does the tech industry deserve women leaders? The split between the stated ideals of the corporate elite and the reality of working life for women in the tech industry—whether in large public tech companies or VC-backed start-ups, in anonymous gaming forums, or in Silicon Valley or Alley—seems designed to crush women's spirits. Corporate manifestos by women who already fit in (or who are able to convincingly fake it) aren't helping. There is a high cost for the generation of young women and transgender people currently navigating the harsh realities of the tech industry, who gave themselves to their careers only to be ignored, harassed and disrespected. Not everyone can be a CEO; not everyone is able to embrace a workplace culture that diminishes the contributions of women and ignores real complaints. The very culture of high tech, where foosball tables and endless supplies of beer are de facto perks, but maternity leave and breast-feeding stations are controversial, is designed to appeal to young men. Lean Out collects 25 stories from the modern tech industry, from people who fought GamerGate and from women and transgender artists who have made their own games, from women who have started their own companies and who have worked for some of the most successful corporations in America,

from LGBTQ women, from women of color, from transgender people and people who do not ascribe to a gender. All are fed up with the glacial pace of cultural change in America's tech industry. Included are essays by Anna Anthropy, Leigh Alexander, Sunny Allen, Lauren Bacon, Katherine Cross, Dom DeGuzman, FAKEGRIMLOCK, Krys Freeman, Gesche Haas, Ash Huang, Erica Joy, Jenni Lee, Katy Levinson, Melanie Moore, Leanne Pittsford, Brook Shelley, Elissa Shevinsky, Erica Swallow, and Squinky. Edited and selected by entrepreneur and tech veteran Elissa Shevinsky, *Lean Out* sees a possible way forward that uses tech and creative disengagement to jettison 20th century corporate culture: "I've figured out a way to create safe space for myself in tech," writes Shevinsky. "I've left Silicon Valley, and now work remotely from home. I adore everyone on my team, because I hired them myself."

From microaggressions to the wage gap, *The Memo* empowers women of color with actionable advice on challenges and offers a clear path to success. Most business books provide a one-size-fits-all approach to career advice that overlooks the unique barriers that women of color face. In *The Memo*, Minda Harts offers a much-needed career guide tailored specifically for women of color. Drawing on knowledge gained from her past career as a fundraising consultant to top colleges across the country, Harts now brings her powerhouse

entrepreneurial experience as CEO of The Memo to the page. With wit and candor, she acknowledges "ugly truths" that keep women of color from having a seat at the table in corporate America. Providing straight talk on how to navigate networking, office politics, and money, while showing how to make real change to the system, The Memo offers support and long-overdue advice on how women of color can succeed in their careers.
