It is a requirement of The Occupational Safety and Health Administration ( OSHA ) that any person who operates a forklift should receive proper training and be evaluated under a minimum set of safety standards. Carolina Trucking Academy is pleased to offer a program designed to comply with these standards to those who wish to pursue work as a forklift operator.

This curriculum is intended to be used during Forklift Operator Training. Employers can assign an existing trained operator as their in house trainer. The curriculum includes a copy of the exam and operational test. A printable (PDF) version of the exam / operational test is available on our website at no cost. If you are issuing your own certificates and wallet cards, we'd be happy to email a free template. We can also generate certificates and wallet cards for those who prefer it, at an added cost. Our Forklift Operator Training Course (Curriculum), covers the following items: Due Diligence Basics, Occupational Health & Safety Management, Course Objectives, General Safety Rules, Operator's Daily Check, Terminology, Mast Types, Forklift Tire Types, The Professional Operator, Maintaining Control, Maintaining Stability, The Stability Triangle, Load Handling, Loading & Unloading Vehicles, Batteries, Safe Handling of Propane (LPG) Fuel, Maintenance, Fork Safety, Ergonomics, Common Factors in Forklift Hazards, Forklift Classes, Lift Codes and Images, Minimum Safe Approach Distance - MSAD, Designations, Glossary of Terms and much more.

This book is a full course handbook that helps you prepare for the forklift certification.

Written for the more than 1.5 million powered industrial truck operators and supervisors in general industry, as well as those in the construction and marine industries, this Second Edition provides an updated guide to training operators in safety and complying with OSHA's 1999 forklift standard. This edition of Forklift Safety includes a new chapter devoted to the new OSHA 1910.178 standard and new information regarding dock safety, narrow aisle trucks, off-dock incidents, tip-over safety, pallet safety, and carbon monoxide.
