E-commerce Get It Right! is a Step-by-Step E-commerce guide, that will show you everything you need to know about selling and marketing physical products online. Whether you're an e-commerce Start-Up or have an existing e-commerce website that is struggling to make a profit, this book is for you.

What Is E-commerce? The Dictionary says: e-commerce: Commerce transacted electronically, as over the Internet. Synonyms include: e-commerce, electronic Commerce, E-commerce, ecommerce, online retail, online trading, and selling online. Selling and transacting like this can be done thanks to the World Wide Web, which is the global combination of links, information, web pages and e-commerce websites. All of this is delivered to us via the Internet, an infrastructure of computers all linked together. E-commerce embodies anything from selling a domain name to selling music downloads, or from information products like this eBook to physical products such as a DVD or clothing. Once ordered these products are shipped direct to your customers' door. The term e-commerce is also commonly used for selling physical

products to retail customers (Business to Consumer, B2C) and business customers (Business-to-Business, B2B). Therefore, we will focus on these in this book.

The Complete E-Commerce Book offers a wealth of information on how to design, build and maintain a successful web-based business.... Many of the chapters are filled with advice and information on how to incorporate current e-business principles o

This book is designed for people who want to understand e-commerce - and by "understanding", we mean first and foremost Why and What, not How. Why is Amazon dominating the market? What happened between 1995 and 2015? Why were the incumbents like Walmart not able to fight back? What will become of the herd of new unicorn e-commerce companies? And what will happen to the traditional value chain on which retail companies operate? This is not a book about How, though, so don't read this hoping to learn "how to master online marketing". From our point of view, the Why and What is much more challenging and important, whether you are running a company in this market or are a student wanting to break into it. In this book, we'll share what we've learned. Look forward to more than 450 pages of valuable material about changes in the value chain, a lively review of how e-commerce has developed over the last 20 years, 50 case studies of digital business models large and small, three extensive interviews with leading e-commerce entrepreneurs, and strategic mind-games galore for a range of industries. The Story so far: Join us in revisiting the last 20 years of e-commerce. Look into the ups but also the downs of various business archetypes. Also, find a detailed analysis of recent market developments and major players in China. Basic Concepts: Learn about the interaction of all building blocks along the e-commerce value chain. You will understand how to make your customer happy in terms of demand based procurement, distribution, customer service, and much more... Case Studies: Get insights into 50 renowned online players around the globe. Each profile covers a detailed business model assessment and market positioning. The authors give a brief outlook on challenges and opportunities for each of the companies portrayed. Strategic Aspects: Find answers to major strategic questions: How to prosper in a "GAFA" dominated economy? Should I resist the temptation to sell via Amazon? Are banking and insurance the next industries to be radically transformed? ...and what is taking so long in the home furnishings sector? Interviews: Tap into the knowledge of successful serial entrepreneurs and get inspired by the latest insights of Stephan Schambach, René Köhler, and Florian Heinemann. Benchmarking: Learn how to benchmark your own e-commerce activities and take a closer look on aspects such as platform, business intelligence, online marketing, and CRM. Sold over 3.000 times in Germany. Voted the best book about E-Commerce!

For sure, you've heard a lot about selling physical products on Amazon lately. But why Amazon? Simply because it's the biggest online store to ever have been - and probably that will ever be - created! If you're interested in e-commerce, Amazon is the right place for you. Another often-overlooked reason to sell on Amazon is its Prime clients. When you let Amazon handle the shipping, your products become eligible to be sold to millions of Amazon Prime clients that will receive any order of any size in just 2 days. So if you're asking yourself "Should I sell there?" the answer is YES! "But aren't there tons of competitors?" Yes, but IT'S NOT IMPORTANT! By opening its platform to third-party sellers, Amazon immediately created one of the biggest opportunities ever for entrepreneurs: it opened its store on its pages, selling to over 225 million clients! There are different ways you can sell on Amazon, but probably selling products with the distributor's own label is by far the best method to reach success. You're basically creating a brand with private labelling of a product that already sells well on Amazon. This not

only makes you avoid having to reinvent the wheel, trying to create and market something new, but also making you compete for the "buy box". When you create your own brand, you distinguish yourself by being the only seller offering your product. This way you can keep all your profits, 100% of the time! The aim is to find a product, create a brand and sell more products in different countries that buy from Amazon. This book will guide you through the fundamentals of Amazon FBA. You will learn: - What Amazon FBA is - What are and how to use the algorithms - What the best market strategy is - Time is money - Finding products - Getting clicks ...and more! But wait, it's not over yet! You have another possibility to make big money. Have you decided to start your online activity by selling products? Shopify is the solution. If you're interested in selling any-size products or any services, Shopify is the simplest platform to build your ecommerce. We will now see how to use the Shopify platform in the following chapters: - What Shopify is - Maximize your profit - Shipping fees - Get the right Shopify key word - Backlink Shopify - Steps to build your online shop - Strategies for the correct pricing ...and much more! The term "e-commerce" was coined to indicate any sort of online transaction. E-commerce is a great way to find products straight from home. Shopify has grown significantly since its launch in 2006. The greatest thing about it is that you don't need to own a company to use this resource. You can sell things from home, if you wish. This makes Shopify a great way to sell what you make. About the Book: Foreword by Bryan Eisenberg In Ecom Hell, Shirley Tan wants to share what she learned in ecommerce to make sure you can avoid getting burned! Shirley Tan started her ecommerce business on a shoe string budget and sold it to a NASDAQ traded corporation. How? She developed systems and efficiencies that made her business hugely profitable and a prime acquisition target. She shares the lessons she learned in this book Ecom Hell is aimed at entrepreneurs building ecommerce business, adventurers who are considering an ecommerce adventure, technically savvy executives who want to get an insiders' guide, information technology professionals who want to benchmark their ecommerce business practice and anyone who has an interest in getting a good grasp of what really goes on in an e-commerce business. The book is filled with tips and checklists on what it really takes to start, run and grow your business and it'll soon become a go-to guide for managers and staff! Here is some of what you'll get from Ecom Hell:*

- * Identifies what areas in ecommerce you should FOCUS on so you maximize your revenues and growth.*
- * The 7 category metrics that drive EVERY ecommerce business and how to measure them so you win.*
- * The 10 BIG mistakes most ecommerce entrepreneur makes and how to avoid them so you can improve your chances of success in ecommerce.*
- * Easy steps to picking niche markets like winning racehorses so you know the winners from the dogs.*
- * Detailed check list on what to look for in an ecommerce platform.*
- * 11 tips on how you can increase your website conversions.

Are you flirting with the idea of your own ecommerce business? Shirley's Ecom Hell takes you through the nitty-gritty of running an ecommerce business. It is a behind-the-scenes look at what can make or break your ecommerce business. Ecom Hell walks you through:*

- * How to get started on a shoestring budget so you'll have plenty of resources available to fund your growth.*
- * How to "cherry pick" your competitors so you ALWAYS win in a head to head contest.*
- * How to buy an existing ecommerce business so you can avoid the "slow start."*
- * How to sell your business so you can retire and have financial security.

Shirley fields frequent questions about the title of her book. Why Ecom Hell? She says, "I believe business success is a combination of strategic planning and excellent execution, helped often by a heavy dose of optimism. I understand the value of optimism as it carries many an entrepreneur through a rough day or two. However, I also believe is anticipating worst case scenarios to avoid them at all costs. This is the impetus behind Ecom Hell: I'll help you face the pitfalls that can be part of ecommerce business building; and give you the best practices to use to navigate your way around these potentially hellish situations. Ecom Hell is going to help you build your own ecom heaven!" "Shirley is an incredible entrepreneur that experienced hands on every aspect it takes to make an ecommerce business successful. Regardless of the stage of your ecommerce business, Shirley provides excellent foresight into how to make it to the next level."-Jennifer Fallon, CEO, The Aspen Brands Company, KateAspen.com & BabyAspen.com "Shirley Tan is the real deal. As an inquisitive entrepreneur, she always asks all the right questions, and now she is sharing all the right answers for creating a successful ecommerce business. Her book is detailed, insightful, and comprehensive, and will become a must-have for all E-com business owners. Not only has she done it herself, but she knows how to identify and document the things that helped her become successful. Sharing this wealth of knowledge is only part of what makes her not only a great author, but a great person as well."-Todd Malicoat, SEO, Faculty Market Motive.com
