The international Catholic weekly.

Cicero is one of the most influential thinkers in the history of Western political thought, and interest in his work has been undergoing a renaissance in recent years. The *Ciceronian Tradition in Political Theory* focuses entirely on Cicero's influence and reception in the realm of political thought. Individual chapters examine the ways thinkers throughout history, specifically Augustine, John of Salisbury, Thomas More, Machiavelli, Montaigne, Hobbes, Locke, Adam Smith, and Edmund Burke, have engaged with and been influenced by Cicero. A final chapter surveys the impact of Cicero's ideas on political thought in the second half of the twentieth century. By tracing the long reception of these ideas, the collection demonstrates not only Cicero's importance to both medieval and modern political theorists but also the comprehensive breadth and applicability of his philosophy.

Cicero composed his incendiary Philippics only a few months after Rome was rocked by the brutal assassination of Julius Caesar. In the tumultuous aftermath of Caesar's death, Cicero and Mark Antony found themselves on opposing sides of an increasingly bitter and dangerous battle for control. Philippic 2 was a weapon in that war. Conceived as Cicero's response to a verbal attack from Antony in the Senate, Philippic 2 is a rhetorical firework that ranges from abusive references to Antony's supposedly sordid sex life to a sustained critique of what Cicero saw as Antony's tyrannical ambitions. Vituperatively brilliant and politically committed, it is both a carefully crafted literary artefact and an explosive example of crisis rhetoric. It ultimately led to Cicero's own gruesome death. This course book offers a portion of the original Latin text, vocabulary aids, study questions, and an extensive commentary. Designed to stretch and stimulate readers, Ingo Gildenhard's volume will be of particular interest to students of Latin studying for A-Level or on undergraduate courses. It extends beyond detailed linguistic analysis to encourage critical engagement with Cicero, his oratory, the politics of late-republican Rome, and the transhistorical import of Cicero's politics of verbal (and physical) violence.

In this companion, international scholars provide a comprehensive overview that reflects the most recent trends in Catullan studies. Explores the work of Catullus, one of the best Roman 'lyric poets' Provides discussions about production, genre, style, and reception, as well as interpretive essays on key poems and groups of poems Grounds Catullus in the socio-historical world around him Chapters challenge received wisdom, present original readings, and suggest new interpretations of biographical evidence

Roman comedy evolved early in the war-torn 200s BCE. Troupes of lower-class and slave actors traveled through a militarized landscape full of displaced persons and the newly enslaved; together, the actors made comedy to address mixed-class, hybrid, multilingual audiences. Surveying the whole of the Plautine corpus, where slaves are central figures, and the extant fragments of early comedy, this book is grounded in the history of slavery and integrates theories of resistant speech, humor, and performance. Part I shows how actors joked about what people feared - natal alienation, beatings, sexual abuse, hard labor, hunger, poverty - and how street-theater forms confronted debt, violence, and war loss. Part II catalogues the onstage expression of what people desired: revenge, honor, free will, legal personhood, family, marriage, sex, food, free speech; a way home, through memory; and manumission, or escape - all complicated by the actors' maleness.

Access Free Ecce Romani Ii Chapter 45 Translation

Comedy starts with anger.

Explores the dynamic interactions among Latin poets, artists, and audiences in constructing and critiquing imperial power in Augustan Rome.

This anthology is designed to meet the needs of Latin students today, acknowledging present constraints on their study-time. It adopts the authors' approach of their "Ecce Romani" series. To enable students to read Latin reasonably quickly, generous assistance is given with vocabulary and explanatory notes placed next to the Latin text. The meaning of difficult sentences and phrases is usually explained by literal translation rather than complex grammatical explanation, though reference is frequently made to the authors' modern grammar book "The Latin Language". An 'overview' technique helps students unravel complex sentences. Extracts are drawn from Cicero's speeches, letters and philosophical writings, thus illustrating his mastery of styles. They are also chosen to provide an interesting contemporary view of a highly significant phase of Roman history, and linked by simple historical background notes. 'Points for Discussion' highlight stylistic features, showing how Cicero's thinking on moral and social issues remains relevant to modern times.
