Applies traditional economic theory to contemporary problems such as unemployment, inflation, and conflicting economic systems.

The first work to seriously and successfully bridge twentieth century economics and philosophy. Subroto Roy draws these two disciplines together and examines the intellectual roots of economics.

In-depth coverage of the new economy and the impact of the digital revolution are included, along with features from BusinessWeek and exclusive analysis and information from Standard & Poor's.

This book explores the economic challenges involved in managing hydrocarbon wealth in the Caspian region, and looks at how to design an optimal energy policy. The book draws on the Author's experience in dealing with the governments of the region, and her knowledge of the role of major companies in the area.

" This lively book illuminates how economics affects all walks of life, whether in the marketplace, voting booth, church, family, or any human activity. Boettke believes that economics is not merely a game to be played by clever professionals, but a discipline that touches on the most pressing practical issues at any historical juncture. The wealth and poverty of nations are at stake; the length and quality of life turns on the economic conditions individuals find themselves living with. So teaching and learning economics are high stakes ventures"--Book cover.
