The go-to legal resource for principals, fully updated! How often does a potential legal issue arise at your school? Now in an expanded third edition, this trusted resource provides clear and helpful guidance from a team of respected school-law experts. Substantive new information shows principals how to: Address student use and misuse of technology, on and off campus Avoid the pitfalls of zero-tolerance discipline policies Lead school safety and violence prevention, including collaboration with school resource officers and other personnel Prevent and respond to bullying incidents Stay current with special education requirements Ensure that employment and evaluation practices reflect the law

In their struggle to identify successful solutions for their schools, teachers, administrators, board members, and parents must wade through reams of educational rhetoric and sales hype. This resource is designed to serve a broad audience of practicing teachers, preservice teachers, administrators, resource teachers, college professors, parents, and others who would like to stay abreast of new education programs and innovations. It objectively explains how each program, practice, and philosophy is supported by research and how it really works in schools. It provides straightforward definitions and concisely illustrates the practical applications and supporting research for approximately 125 educational innovations. Entries include feedback from award-winning teachers, giving educators an unbiased view of real-world effectiveness. Some highlights are as follows: (1) the exploration of more than 60 innovative practices, including assertive discipline, computer-assisted instruction, conflict resolution, distance learning, and the Socratic method; (2) an examination of results-oriented programs, including emergent literacy, Jumpstart, and Touch Point Math; (3) detailed discussion of policies regarding immersion and inclusion, standardized testing, and summer school; and (4) comprehensive coverage of movement, concepts, and theories, including brain-based learning, mainstreaming, multicultural education, and school vouchers. (Contains 135 references.) (RT)

Innovations Through Information Technology aims to provide a collection of unique perspectives on the issues surrounding the management of information technology in organizations around the world and the ways in which these issues are addressed. This valuable book is a compilation of features including the latest research in the area of IT utilization and management, in addition to being a valuable source in support of teaching and research agendas.

Minimize site-based risk while respecting the legal rights of students, staff, and parents! These recognized school law experts translate the intricacies of school law into proactive day-to-day leadership practice. This second edition contains programmatic guidance for other school district personnel, "management cues" and "risk management guidelines," a comprehensive index, and references to landmark court cases, coverage of the No Child Left Behind Act, and information on state-created danger and deliberate indifference. School administrators can quickly find guidance on issues such as: Staff selection and evaluation Student rights and discipline Special education and IDEA regulations Copyright law Search and seizure Sexual harassment and exploitation

Annotation "The goal of this book is to provide a quick reference guide for law enforcement officers in their quest to furnish professional police services to their communities. Designed to be a handy source for the study of criminal procedures, this guide has assembled numerous court cases that will assist officers in dealing with the issues they may often encounter."

This Guidance volume explains the benefits of using SEA in development co-operation and sets out key steps for its application based on recent experiences.

After observing the devastation of hurricanes Katrina and Rita, the tsunami in Indonesia and Malaysia, catastrophic floods worldwide, and earthquakes in diverse places, Dian and Mary acquired a deep desire to share their knowledge and information with everyone who wants it. This manual is intended for the instruction and benefit of you and your family to be ready before a disaster hits. If ye are prepared ye shall not fear.

This book shows you how to teach K-12 students to work in pairs and groups more effectively, so that true collaboration can happen in the classroom. Coming from their experience in social work and classroom teaching, Christina M. Krantz and Laura Gullette Smith explain the problems that can occur with traditional Think-Pair-Share models and offer refreshing solutions. They provide practical strategies to help students build collegial peer relationships, learn to share tasks, and hold deeper discussions. Each chapter offers useful strategies that you can implement immediately. This book includes an invaluable amount of resources that the authors share when leading workshops, as well as rubrics, agendas, and classroom tools designed with the strategies covered in each chapter in mind.
