Three works deal with a concentration camp survivor, a hostage holder in Palestine, and a recovering accident victim.

This book analyzes American war propaganda, beginning with the Spanish-American War and extending through the wars in Afghanistan and Iraq. Using Fisher's narrative paradigm, the author identifies and critically evaluates recurring war stories, determining whether or not they truly provided good reasons to go to war.

"Wiesel's account of his time in concentration camps during the Holocaust with updated front and back matter to include speeches and essays commemorating his recent death"--

An update of a popular work that takes on the myths of the Spanish Conquest of the Americas, featuring a new afterword. Seven Myths of the Spanish Conquest reveals how the Spanish invasions in the Americas have been conceived and presented, misrepresented and misunderstood, in the five centuries since Columbus first crossed the Atlantic. This book is a unique and provocative synthesis of ideas and themes that were for generations debated or perpetuated without question in academic and popular circles. The 2003 edition became the foundation stone of a scholarly turn since called The New Conquest History. Each of the book's seven chapters describes one "myth," or one aspect of the Conquest that has been distorted or misrepresented, examines its roots, and explodes its fallacies and misconceptions. Using a wide array of primary and secondary sources, written in a scholarly but readable style, Seven Myths of the Spanish Conquest explains why Columbus did not set out to prove the world was round, the conquistadors were not soldiers, the native Americans did not take them for gods, Cortés did not have a unique vision of conquest procedure, and handfuls of vastly outnumbered Spaniards did not bring down great empires with stunning rapidity. Conquest realities were more complex--and far more fascinating--than conventional histories have related, and they featured a more diverse cast of protagonists--Spanish, Native American, and African. This updated edition of a key event in the history of the Americas critically examines the book's arguments, how they have held up, and why they prompted the rise of a New Conquest History.

A Study Guide (New Edition) for Elie Wiesel's "Night", excerpted from Gale's acclaimed Novels for Students. This concise study guide includes plot summary; character analysis; author biography; study questions; historical context; suggestions for further reading; and much more. For any literature project, trust Novels for Students for all of your research needs."

After the accession of Elizabeth I in 1558, Protestant England was beset by the hostile Catholic powers of Europe, including Spain. In October 1585, King Philip II of Spain declared his intention to destroy Protestant England and began preparing invasion plans, leading to an intense intelligence war between the two countries and culminating in the dramatic sea battles of 1588. Popular history dictates that the defeat of the Spanish Armada was a David versus Goliath victory, snatched by plucky and outnumbered English forces. In this tightly written and fascinating new history, Robert Hutchinson explodes this myth, revealing the true destroyers of the Spanish Armada--inclement weather and bad luck. Of the 125 Spanish ships that set sail against England, only 60 limped home, the rest wrecked or sank with barely a shot fired from their main armament. In this dramatic hour-by-hour, blow-by-blow account of the Spanish Armada's attempt to destroy Elizabeth's England, Hutchinson spins a compelling and unbelievable narrative. Using everything from contemporary eyewitness accounts to papers held by the national archives in Spain and the United Kingdom, Robert Hutchinson re-creates one of history's most famous episodes in an entirely new way.

An annotated bibliography covering the best in historical fiction set all around the world

A sweeping, authoritative history of 16th-century Spain and its legendary conquistadors, whose ambitious and morally contradictory campaigns propelled a small European kingdom to become one of the formidable empires in the world "The depth of research in this book is astonishing, but even more impressive is the analytical skill Cervantes applies. . . . [He] conveys complex arguments in delightfully simple language, and most importantly knows how to tell a good story." --The Times (London) Over the few short decades that followed Christopher Columbus's first landing in the Caribbean in 1492, Spain conquered the two most powerful civilizations of the Americas: the Aztecs of Mexico and the Incas of Peru. Hernán Cortés, Francisco Pizarro, and the other explorers and soldiers that took part in these expeditions dedicated their lives to seeking political and religious glory, helping to build an empire unlike any the world had ever seen. But centuries later, these conquistadors have become the stuff of nightmares. In their own time, they were glorified as heroic adventurers, spreading Christian culture and helping to build an empire unlike any the world had ever seen. Today, they stand condemned for their cruelty and exploitation as men who decimated ancient civilizations and carried out horrific atrocities in their pursuit of gold and glory. In Conquistadores, acclaimed Mexican historian Fernando Cervantes--himself a descendent of one of the conquistadors--cuts through the layers of myth and fiction to help us better understand the context that gave rise to the conquistadors' actions. Drawing upon previously untapped primary sources that include diaries, letters, chronicles, and polemical treatises, Cervantes immerses us in the late-medieval, imperialist, religious world of 16th-century Spain, a world as unfamiliar to us as the Indigenous peoples of the New World were to the conquistadors themselves. His thought-provoking, illuminating account reframes the story of the Spanish conquest of the New World and the half-century that irrevocably altered the course of history.

The narrative of a boy who lived through Auschwitz and Buchenwald provides a short and terrible indictment of modern humanity.

A former French Resistance fighter records her memories of Auschwitz in terse, moving prose and free verse
