An Oprah Book Club selection, Cry, the Beloved Country, the most famous and important novel in South Africa's history, was an immediate worldwide bestseller in 1948. Alan Paton's impassioned novel about a black man's country under white man's law is a work of searing beauty. Cry, the beloved country, for the unborn child that is the inheritor of our fear. Let him not love the earth too deeply. Let him not laugh too gladly when the water runs through his fingers, nor stand too silent when the setting sun makes red the veld with fire. Let him not be too moved when the birds of his land are singing, nor give too much of his heart to a mountain or valley. For fear will rob him of all if he gives too much. The eminent literary critic Lewis Gannett wrote, "We have had many novels from statesmen and reformers, almost all bad; many novels from poets, almost all thin. In Alan Paton's Cry, the Beloved Country the statesman, the poet and the novelist meet in a unique harmony." Cry, the Beloved Country is the deeply moving story of the Zulu pastor Stephen Kumalo and his son, Absalom, set against the background of a land and a people riven by racial injustice. Remarkable for its lyricism, unforgettable for character and incident, Cry, the Beloved Country is a classic work of love and hope, courage and endurance, born of the dignity of man.

First published in 1990, this collection celebrates the life and work of Professor A. C. Gimson, four years after his untimely death in 1985. A. C. Gimson, Professor of Phonetics at University College London, 1966-83, was the most distinguished and influential phonetician of his day concentrating specifically on English speech. This collection of essays on phonetics and phonology of English- written by linguists from all over the world - celebrates his life and work. The work is divided into five sections: prosody; phonology and phonetic description; accents of English and RP; other accents of English (focusing on those non-native speakers); and phonostylistics. The twenty-eight chapters cover a very wide range of topics and the contributors offer a stimulating variety of approaches, with the emphasis on data-based objectivity. Educating dual language learners (DLLs) and English learners (ELs) effectively is a national challenge with consequences both for individuals and for American society. Despite their linguistic, cognitive, and social potential, many ELs&quot;who account for more than 9 percent of enrollment in grades K-12 in U.S. schools&quot;are struggling to meet the requirements for academic success, and their prospects for success in postsecondary education and in the workforce are jeopardized as a result. Promoting the Educational Success of Children and Youth Learning English: Promising Futures examines how evidence based on research relevant to the development of DLLs/ELs from birth to age 21 can inform education and health policies and related practices that can result in better educational outcomes. This report makes recommendations for policy, practice, and research and data collection focused on addressing the challenges in caring for and educating DLLs/ELs from birth to grade 12.
